A drawing of Monks Mound published in 1844 (Featherstonhaugh 1844).

Ten thousand years before the coming of French explorers Jacques Marquette and Louis Joliet numerous tribes of Indians lived in the river valleys and prairies which today comprise the State of Illinois.

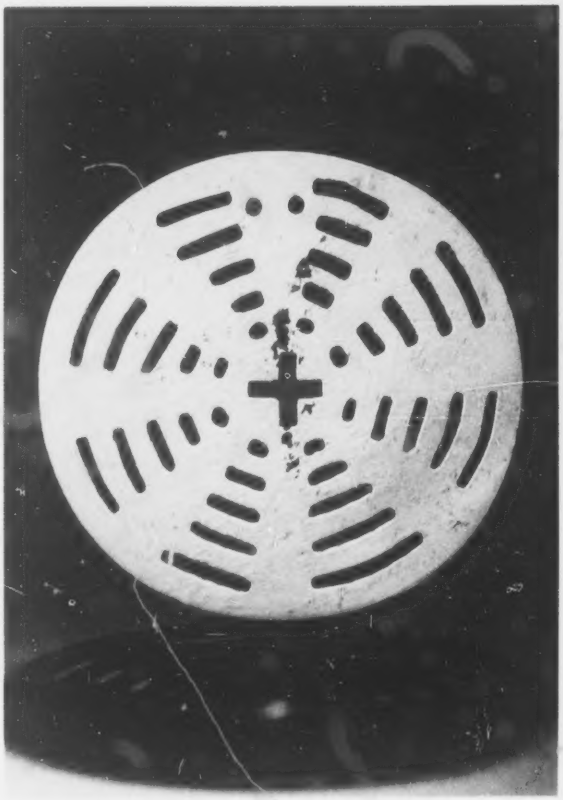
Prior to the conquering of the Illinois territory from the English by George Rogers Clark, there was little or no interest in the history of the area. It wasn't until the beginning of the nineteenth century that the thousands of ancient earthen mounds and village sites attracted the interest of Illinois' new settlers.

Who were these "Mound Builders"? How old were their remains and what happened to them? During the 1930's the first scientific attempt at answering these questions was made, most notably by students and faculty from the University of Chicago.

It is learned from the artifacts left behind by past cultures and civilizations that archaeologists are able to reconstruct the way of life of a people. Since there is no way to interview persons of the past, physical evidence - broken tools, pottery, ornaments, weapons, remains of houses and other refuse - is interpreted with what we know of peoples and cultures in existence today. Prehistorians question how cultures functioned and why they declined or evolved. Attempts to understand and explain such phenomena are often based on the study of prehistoric trade or commerce which was a means of communication.

Archaeologists carefully excavating mounds and buried sites have slowly pieced together parts of this prehistoric puzzle. We now know, for example, that the great Cahokia Mounds, across the Mississippi River and east of St. Louis, were the focus of the largest prehistoric chiefdom in North America. This region, with its 20,000 or so inhabitants, controlled an immense territory and established trade networks which transported rare and valuable goods from as far as the Gulf Coast and the Appalachian Mountains.

A significant boom to archaeological research in Illinois was the landmark 1956 Federal-Aid Highway Act which, for the first time provided funding for the excavation of prehistoric sites affected by highway construction. The Illinois Department of Transportation was among the earliest to respond to this legislation by developing an organized system which set the stage for a quarter century of cooperation between engineers and archaeologists to preserve important scientific and cultural data.



Marine shell gorget excavated July, 1969, east of Monks Mound at Cahokia Mounds State Historic Site by an archaeological field school under the direction of Charles J. Bareis, Department of Anthropology, University of Illinois at Urbana.

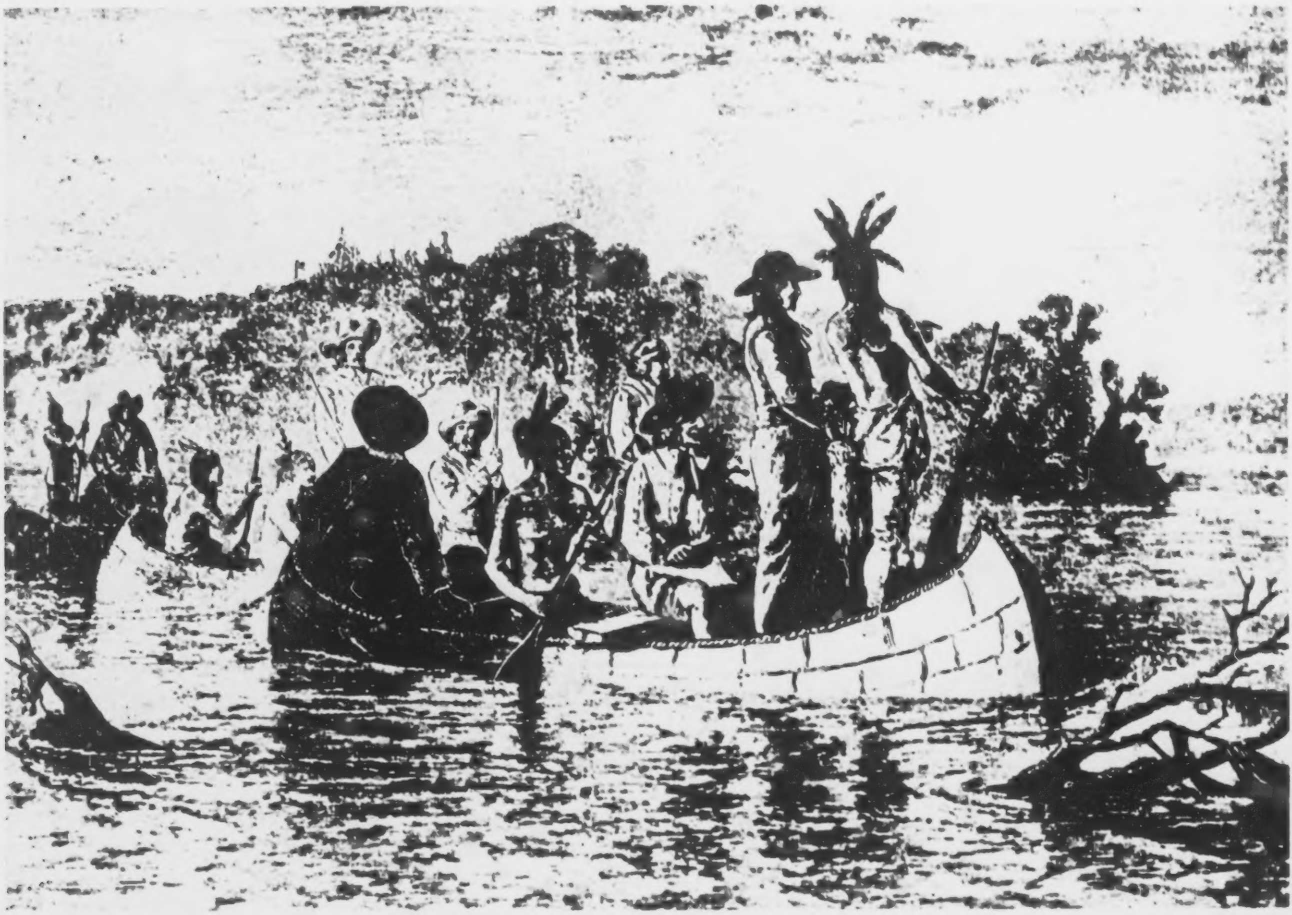
During the late 1960s and 70s archaeological research along the I-255 right-of-way revealed great discoveries of over 100 prehistoric villages and camps. More has been learned about the 1000-year-old Cahokia chiefdom from the excavation of these sites than preceding archaeological investigations in this region. Thus, this section of Illinois has become known as the--

Prehistoric Capitol of the Midwest

THE PROMISE OF ILLINOIS

Illinois was destined by nature to become the trade center of the nation. Geography and geology were important in the settlement and growth of civilization in Illinois. Historically, the Ohio, Mississippi and the Missouri Rivers bordering Illinois, were the highways of the nation which carried explorers and traders to discover the rich soil and abundant resources of this mid-continent territory. The same environmental, geographical and agricultural factors which were important to those early adventurers, have not changed.

Today, our Great State is a center for industry and commerce. America's transportation center uniquely supplies national and international markets through an extensive network of the largest inland waterways in the nation; over 136,000 miles of highways, the third largest system in the country; the two largest rail terminals in the United States; 121 airports, including O'Hare International, the world's busiest; and the second largest public transit system in the nation.



Father Marquette and Joliet discover the Mississippi 1673

The sun on two canals and one river
Makes three stripes of silver
Or copper and gold
On shattered sunflower leaves
Talons of an iceberg
Scraped out this valley
Claws of an avalanche loosed here

Comptroller's Message

To the Citizens of Illinois:

I am proud to issue the annual report for the State of Illinois for the fiscal year ended June 30, 1985. Contained herein are financial statements, footnotes, and other fiscal information which are presented in accordance with generally accepted accounting principles (GAAP) and on the traditional budgetary basis.

I am also pleased to report that the balance in the General Funds at June 30, 1985, in accordance with GAAP, was $18.7 million. This is the first year in which the General Funds has had a positive year-end fund balance since the implementation of GAAP financial reporting in fiscal year 1981.

The positive GAAP fund balance was achieved in spite of tax revenues which increased at a lesser rate during fiscal year 1985 than during fiscal year 1984. The decreasing growth rate of tax revenues was the result of income tax rates which returned to normal during fiscal year 1985 after increasing during fiscal year 1984 pursuant to the use of an unprecedented temporary tax increase. At the same time, expenditure growth rates, on a GAAP basis, outpaced revenue increases during fiscal year 1985. This imbalance cannot continue in the long run without a substantial deterioration in the State's fiscal condition.

On the traditional budgetary basis, the June 30, 1985 budgetary balance was $44.6 million—the first positive budgetary balance since fiscal year 1979. The General Funds available balance was $479.4 million at June 30, 1985 - the highest end of year available balance in the history of the General Funds.

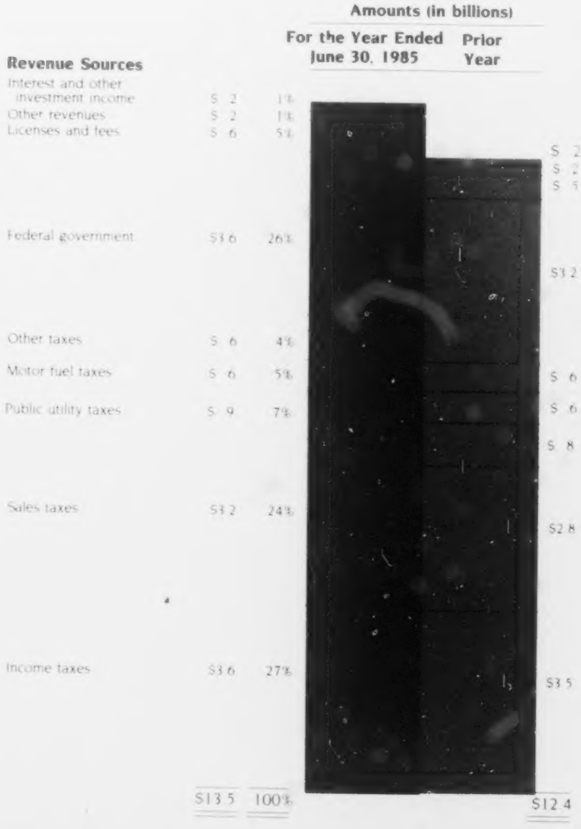
Section I of this report depicts the State's activity and financial position for fiscal year 1985 in accordance with GAAP, while Section II presents financial information in the traditional budgetary format. Both sections provide valuable financial information which, when properly analyzed, can be utilized as a tool to assist management and help to avoid future fiscal stress similar to that experienced in fiscal year 1983. A discussion of specific aspects of this report is set forth below.

Revenues for the governmental fund types, which include the general, special revenue, capital projects, and debt service funds, are presented on a modified accrual basis of accounting. It is these fund types through which most state functions are financed. Revenues on this basis are recognized when they are both measurable and available to finance current expenditures. Revenues (amounts expressed in millions) from various sources for fiscal years 1985 and 1984, were as follows:

Revenue Source	Amount		Percentage of Total	
	1985	1984	1985	1984
Taxes:				
Income	$ 3,638	$ 3,511	27%	28%
Sales	3,177	2,820	24	23
Public-utility	893	830	7	7
Motor fuel	617	552	5	5
Other	596	601	4	5
Federal government	3,565	3,208	26	26
Licenses and fees	654	535	5	4
Interest and other investment income	182	162	1	1
Other revenues	195	156	1	1
	$13,517	$12,375	100%	100%

As indicated in the above table, revenues totaled $13,517 million for fiscal year 1985 which represents an increase of 9.2% over revenues for fiscal year 1984. Income taxes, at $3,638 million, remained the largest source of revenue in fiscal year

General Governmental Functions



1985 but with only a modest 3.6% increase from the prior year. This increase was realized in spite of lower individual and corporate tax rates in effect during the entire fiscal year. In July 1983, the State enacted a temporary increase in the tax rates which terminated on June 30, 1984. As a result, for fiscal year 1985, the rates returned to 2.5% from 3% for individual taxpayers and 4% from 4.8% for corporate taxpayers. However, during fiscal year 1985, the State authorized a tax amnesty program whereby delinquent taxpayers could settle their tax debts with the State without fear of prosecution. This program realized approximately $85 million in income tax revenues during the fiscal year. In addition, interest paid with income tax refunds was netted against income tax revenues in prior years. This year we have reclassified such interest and properly reported it as debt service expenditures. This reclassification increased income tax revenues by approximately $137 million as compared to the level it would have been under the reporting method used in prior years.

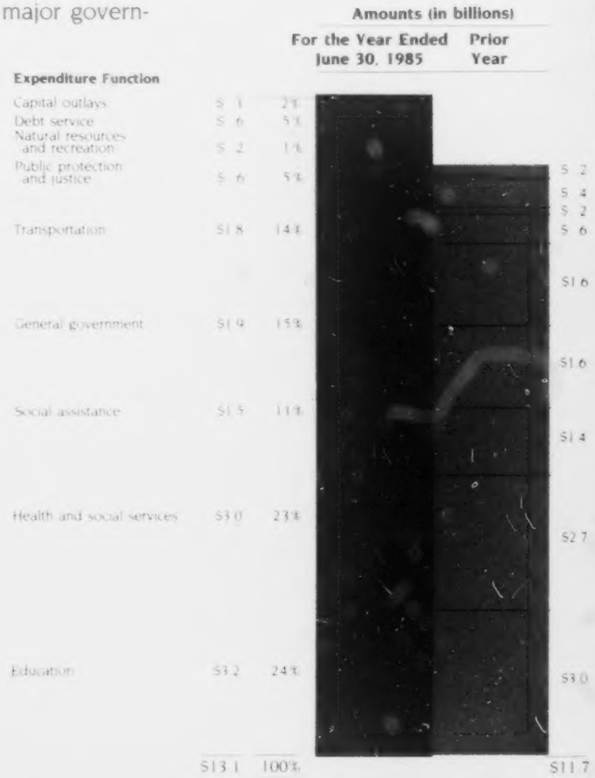
Sales tax revenues were $3,177 million for fiscal year 1985 which represents an increase of 12.7% from the prior year. This growth is a reflection of the increase in the tax rate from 4% to 5% (effective January 1, 1984) and growth in retail sales in the State.

Federal government revenues totaled $3,565 million for fiscal year 1985, an 11.1% increase from fiscal year 1984. The major components of the growth in federal government revenue were increases in the level of federal aid for highway construction, public aid, job training and elementary and secondary education.

Expenditures for governmental fund types are presented on the modified accrual basis of accounting. Expenditures (amounts expressed in millions) for major governmental fund functions in fiscal years 1985 and 1984, were as follows:

Expenditure Function	**Amount**		**Percentage of Total**	
	1985	**1984**	**1985**	**1984**
Education	$ 3,188	$ 2,996	24%	25%
Health and social services	2,995	2,691	23	23
Social assistance	1,516	1,435	11	12
General government	1,918	1,598	15	14
Transportation	1,831	1,609	14	14
Public protection and justice	639	554	5	5
Natural resources and recreation	165	156	1	1
Debt service	609	434	5	4
Capital outlays	280	227	2	2
	$13,141	$11,700	100%	100%

Expenditures in total were $13,141 million for fiscal year 1985, representing a 12.3% increase from the prior year. The majority of the increase was attributed to health and social services, general government, and transportation expenditures increasing 11.3%, 20.0% and 13.8%, respectively.



Health and social services expenditures increased $304 million from the prior year. The increase was primarily the result of higher medical assistance payments to the needy.

The increase in transportation expenditures to $1,831 million was directly related to the increased federal government and motor fuel tax revenues. The State motor fuel tax increase enacted in July 1983 was specifically for the purpose of providing additional highway and construction program resources.

General government expenditures increased by $320 million from the prior year. A majority of the increase was due to an increased level of expenditures of the corporate personal property replacement tax funds to local government taxing districts. This particular tax did not incur a rate reduction as the other income tax components did on June 30, 1984 and revenues from this tax increased due to the improved economy. In addition, a portion of the revenues generated from the income tax amnesty program related to corporate personal property replacement taxes was earmarked for distribution to local government taxing districts. Another significant reason for the higher general government expenditures was the establishment of a new tourism program in the State whereby tourism expenditures were disbursed in order to stimulate portions of the Illinois economy.

Expendable Trust Improvements

Total revenues for the State's expendable trust funds decreased from $1,869 million in fiscal year 1984 to $1,616 million in fiscal year 1985, a 13.5% decrease. Total expenditures decreased from $1,312 million in fiscal year 1984 to $1,014 million in fiscal year 1985, a 22.7% decrease. This decrease was largely attributable to the improved economy and the elimination during 1985 of the extended benefit program thereby reducing the level of federal reimbursement.

Debt Administration

Illinois again received high bond ratings in fiscal year 1985 from both Moody's Investors Service (Aaa) and Standard and Poor's Corporation (AA+) for its general obligation bonds. Outstanding general obligation bonds at June 30, 1985, totaled $3,487 million and were issued primarily to provide funds for acquisition and construction of capital facilities for higher education, public and mental health, correction and conservation purposes, and for maintenance and construction of highway and waterway facilities. Bonds have also been issued to provide assistance to municipalities for construction of sewage treatment facilities, port districts, local schools, mass transportation and aviation purposes, and to fund research and development of coal as an energy source.

General obligation bonds (amounts expressed in millions) issued during fiscal year 1985 were as follows:

Date of Issue	Amount	Average Interest Rate
9/1/84	$150	9.11%
1/1/85	100	8.94
6/1/85	100	8.22

In addition to general obligation bonds, Illinois' reporting entity has $1,951 million of revenue bonds, $1,967 million of unfunded pension expense, $81 million of notes payable, and $692 million of other long-term obligations outstanding as of June 30, 1985.

Proprietary Funds

Combined operating revenues for the State's enterprise funds increased from $1,200 million in fiscal year 1984 to $1,571 million in fiscal year 1985. Combined operating expenses increased from $750 million to $970 million during the same period. As in the prior year, the primary cause for the increases was the increased activity relating to the Illinois State Lottery.

Combined operating results for the State's internal service funds indicate increased activity during fiscal year 1985; however, revenues exceeded expenses by a comfortable margin. Operating revenues and expenses were $142 million and $137 million, respectively, for fiscal year 1985, while related amounts for fiscal year 1984 were $114 million and $115 million, respectively. The principal internal service operations provide data processing, motor pool vehicles, telephone communications and printing services to other State departments.

Retirement Systems

Total net assets of the pension trust funds on a current market basis aggregated $8.4 billion at June 30, 1985. The most current actuarial valuations of the pension trust funds indicated that the actuarial present value of accumulated plan benefits was $13.3 billion and exceeded net assets of the funds by $5 billion. On a market value basis, the funding ratio for all funds combined increased to 62.9% at June 30, 1985 from 55.8% at June 30, 1984. In addition, on a cost basis, the funding ratio increased to 58.9% at June 30, 1985, from 57.7% at June 30, 1984.

Certificate of Conformance

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Conformance in Financial Reporting to the State of Illinois for its comprehensive annual financial report for the fiscal year ended June 30, 1984.

In order to be awarded a Certificate of Conformance, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Conformance is valid for a period of one year only. Effective January 1, 1986, the GFOA changed the program title to Certificate of Achievement for Excellence in Financial Reporting. We believe our current report continues to conform to the Certificate Program requirements and I will be submitting it to the GFOA to determine its eligibility for another certificate.

Prospects for the Future

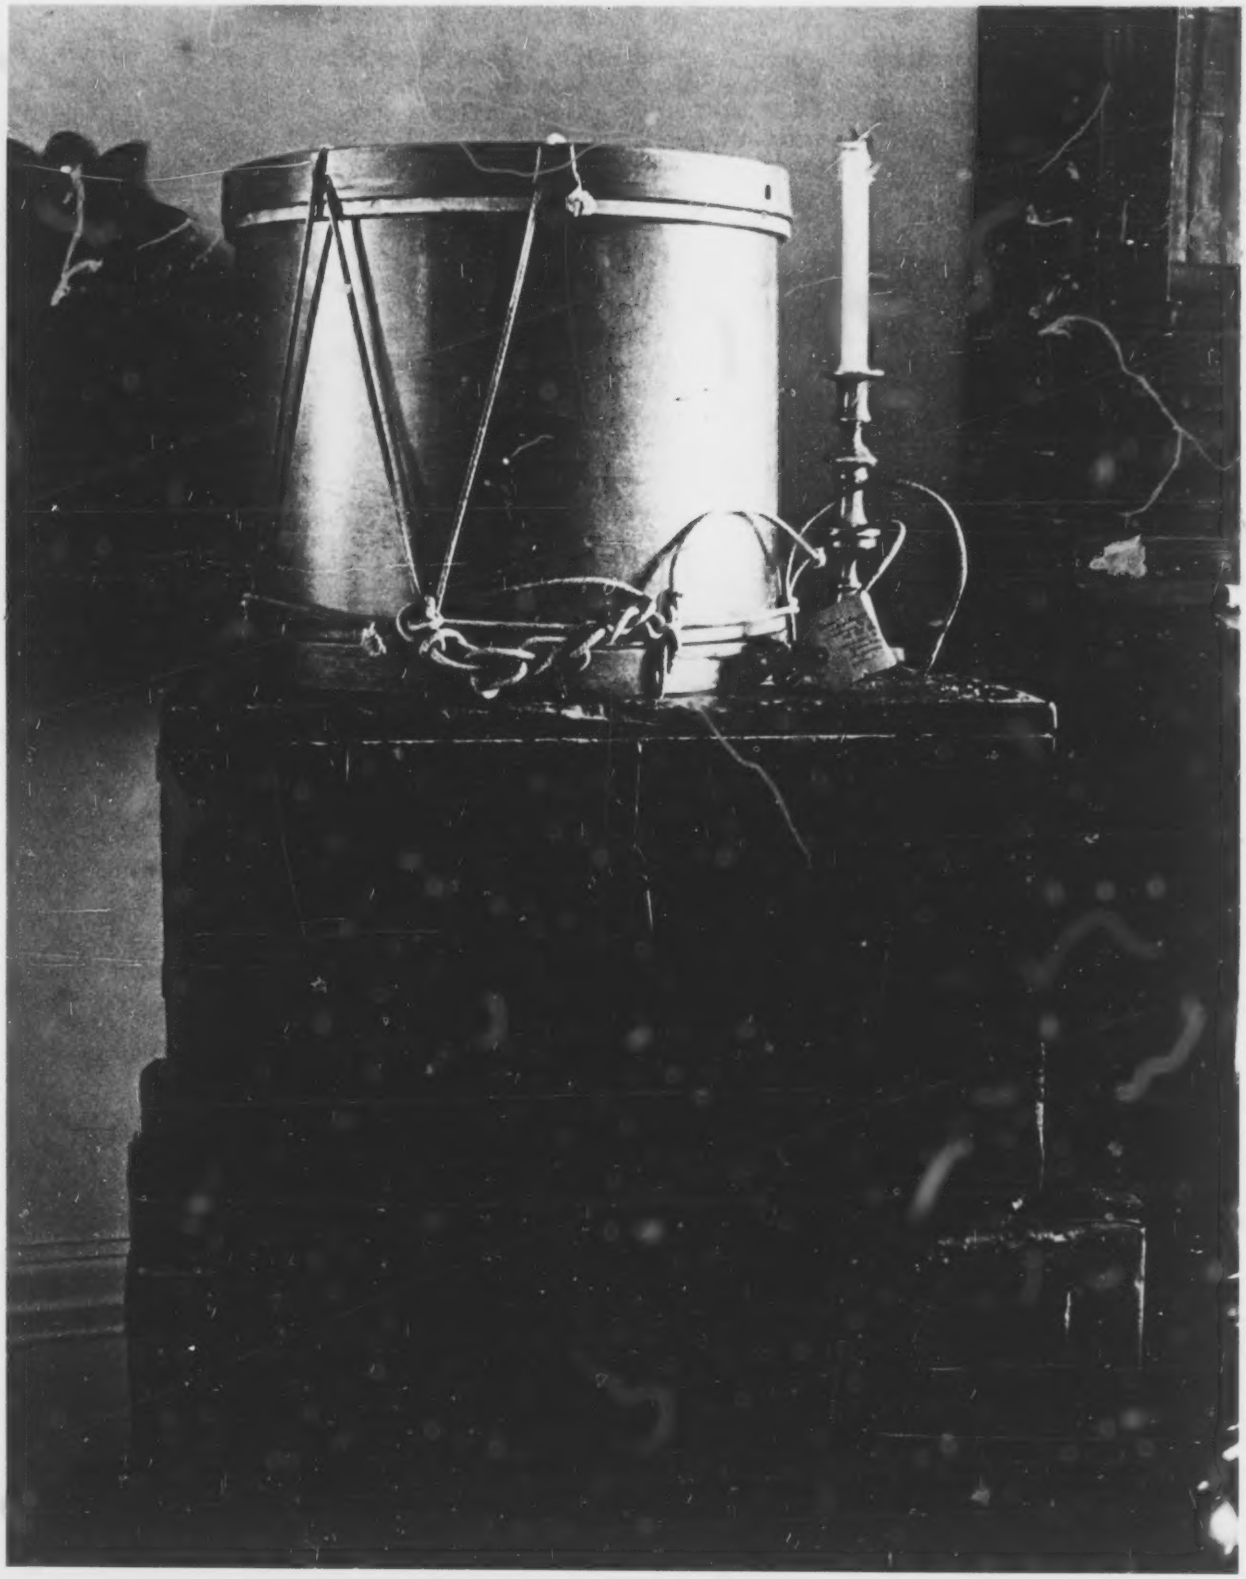
Currently, falling oil prices are limiting the rate of inflation, lower interest rates are reducing the cost of purchasing durable items, and the declining value of the dollar is increasing the international competitiveness of American goods. If these factors can cause consumers to increase their purchases, even though consumer debt has reached record high levels, and companies to boost their investments, although significant amounts of productive capacity remain underutilized, they will provide the impetus for further national economic recovery.

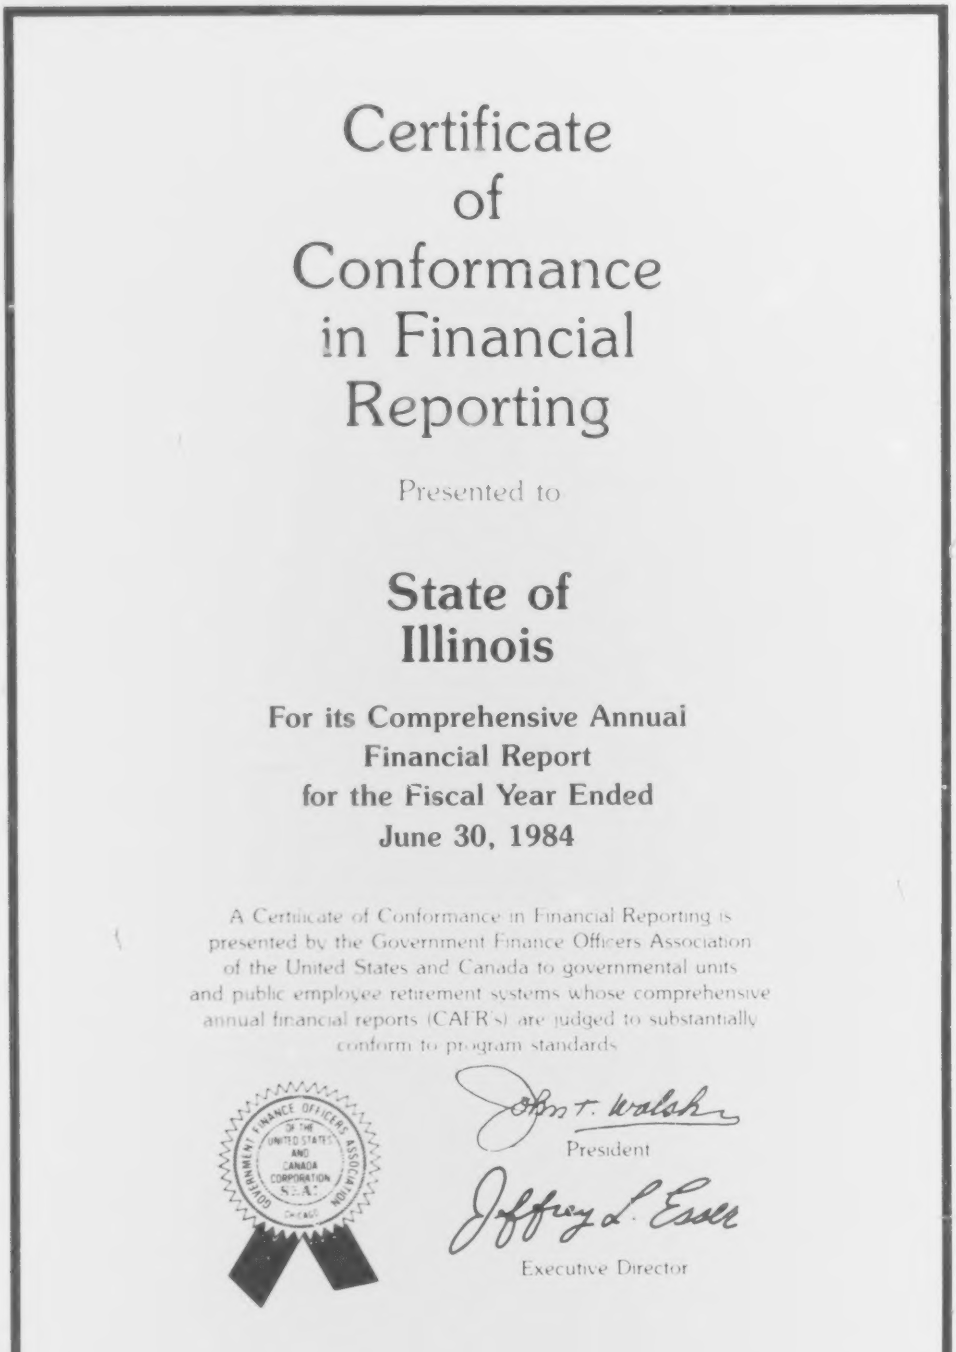
Illinois, like the remainder of the Midwest, has lagged behind the national economy due, in part, to the depressed conditions of its key heavy manufacturing and agricultural industries. Hopefully, the lower value of the dollar and reduced interest rates will mark the beginning of a revival for these vital industries. Further, national economic growth will determine the performance of the substantial merchandising, transportation, finance, communications, health services, and high tech industries in Illinois that serve national markets.

Sincerely,

Roland W. Burris

Roland W. Burris
Comptroller





Certificate of Conformance in Financial Reporting

Presented to

State of Illinois

For its Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 1984

A Certificate of Conformance in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to governmental units and public employee retirement systems whose comprehensive annual financial reports (CAFR's) are judged to substantially conform to program standards

John T. Walsh
President

Jeffrey L. Esser
Executive Director

The State of Illinois was awarded the Certificate of Conformance by the Government Finance Officers Association of the United States and Canada for its Annual Financial Report for the year ended June 30, 1984. Illinois, Maryland and Tennessee are the only states to currently hold a valid Certificate of Conformance.

Office of the Comptroller

The Office of the Comptroller was created by the 1970 Constitution and designated as the State's chief fiscal officer. In this role of chief fiscal officer, the Comptroller is responsible for reviewing, maintaining and improving the fiscal control over the influx of revenues and the outflow of expenditures from the State Treasury. The Comptroller also reports monthly and annually on the fiscal health of the State, designs and prepares the State's central accounting system and makes available information about the State's activities for public review.

The Treasurer has custody of many of the State's funds and is responsible for the investment of these funds and for the availability of these funds to pay the State's bills. It is the Comptroller, however, who orders all payments into (deposits) and payments out of (warrants or checks) the numerous funds held by the Treasurer. No payment can be made from any fund held by the Treasurer without the approval of the Comptroller.

The Comptroller is also responsible for determining the legality of each bill presented for payment. In fiscal year 1985 this responsibility involved the central accounting of over $17.9 billion in expenditures from State treasury held funds.

The Comptroller issued more than 15.3 million warrants (checks) in fiscal year 1985 including the payroll for nearly 111,000 State employees and approximately 2.95 million warrants for State income tax refunds.

The Comptroller's Uniform Statewide Accounting System (CUSAS) now provides for immediate access to State financial information on a daily basis. With the use of computer programs, financial reports are generated each day which show the amount of money received or disbursed and the amount available in each account.

The Comptroller is responsible for maintaining on file all State contracts with various companies or individuals as well as the storage and retrieval of all documents supporting the payout of tax money. Millions of individual records and support documents are retained for a period of five years after which time the support documents are destroyed but the warrant is microfilmed and retained for a period of seven years.

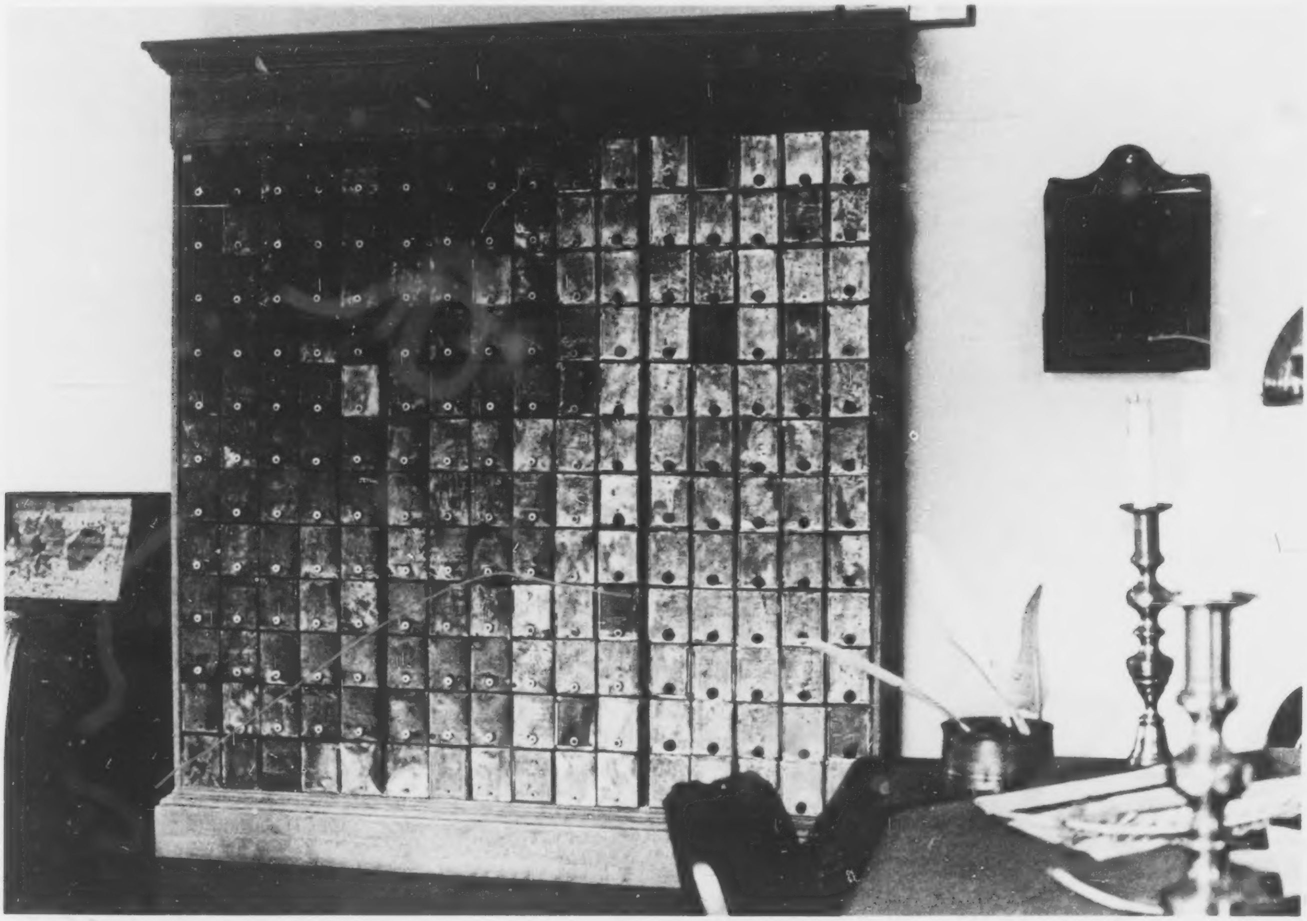
The Comptroller also maintains summary information on certain State funds which are authorized to be held outside the State Treasury. These locally held fund reports are filed quarterly with the Comptroller's Office.

Fixed asset reports are filed with the Comptroller's Office by all State agencies on a quarterly as well as on an annual basis. These reports are reconciled and maintained on file at the Comptroller's Office.

Current records of the State's outstanding bonded indebtedness and certain other bonding information are also collected, summarized and published by the Comptroller.

Other functions of the Comptroller's Office include maintaining fiscal reports which are filed by local government units and carrying out the various provisions of the Cemetery Care Act.

These functions are accomplished by the Comptroller through offices located in Springfield and Chicago.



(top) The Auditor's Office of the 1850's stored financial information in tin drawers. (bottom) Today, The Comptroler's Office computerized equipment prints an average of 77,500 checks each working day to pay for all of the state's bills including education, health and social services, transportation, aid to the poor and disabled and other expenditures.

Generally Accepted Accounting Principles Overview

Presentation

Section I contains the general purpose financial statements (GPFS) of the State of Illinois presented in accordance with generally accepted accounting principles (GAAP) for state governments, with an accompanying report on those statements from the State Auditor General and an analysis of GAAP basis revenues and expenditures.

The financial statements include a combined balance sheet for all funds of agencies, boards, commissions, authorities, universities and foundations that were deemed part of the State of Illinois financial reporting entity in accordance with the National Council on Governmental Accounting Statement 3, as recognized by the Governmental Accounting Standards Board Statement 1. It also presents in separate operating statements: governmental and expendable trust fund types; proprietary, nonexpendable and pension trust fund types; and university and college current funds. Also, the Combined Statement of Changes in Financial Position—All Proprietary Fund Types, Nonexpendable and Pension Trust Funds, and the Combined Statement of Changes in Fund Balances—University and College Fund Type have been included in the GAAP presentation.

An integral part of the GPFS is the Statement of Revenues, Expenditures, Other Sources and Uses of Financial Resources and Changes in Budgetary Fund Balances—Budget and Actual (Non-GAAP), All Budgeted Fund Groups. This Statement incorporates expenditures recorded on the Comptroller's Uniform Statewide Accounting System (CUSAS) for both final budget and actual amounts that are presented in Section II of this annual report. The source for the revenue budget was derived from the *Illinois State Budget*, with actual revenue amounts from CUSAS and reported in Section II. A comprehensive presentation of receipt and appropriation activity is provided in the *Illinois Detailed Annual Report*. The State of Illinois, pursuant to statute, enacts a budget on a basis of accounting other than GAAP and, therefore, must present additional data to provide a budget to GAAP reconciliation. Note 2 incorporates data from the budget to actual statement and supplies the necessary trail from the budgetary reporting system to the GAAP financial statements.

State Universities and Colleges are presented in the financial statements as a discrete reporting entity. The basis of accounting used in the State's presentation is set forth in the *College and University Business Administration* manual and the American Institute of Certified Public Accountants' *Audits of Colleges and Universities*, with modifications to allow the combining of the university and college fund type balance sheet with the remaining fund types.

Results—General Fund (Budgetary Basis vs. GAAP)

Significant differences between the GAAP and the budgetary statements can be classified into two categories: Reporting classifications and basis of accounting adjustments.

Reporting classifications—

For GAAP purposes, the accounts within the General Fund have been combined and as a result of this combination, the $940 million transfer of funds from the General Revenue Fund to the Common School Fund has been eliminated. Other reporting differences include the reclassification of university and college expenditures from the education functions to transfers-out for the GAAP statements and the recognition of federal receipts by the Department of Public Aid as a federal government source versus a transfers-in as reported in the budgetary statements.

Basis of accounting adjustments—

GAAP adjustments resulting from significant differences in the basis of accounting include recording taxes and other receivables which are measurable and available to finance expenditures of the current period, and recording liabilities which will be paid from future year appropriations including State Board of Education reimbursement programs, Public Aid medical reimbursements and tax refunds.

Approach

The 1985 financial statements were compiled with the assistance of a computerized data accumulation system. GAAP adjustments disclosure information for all treasury held and non-treasury funds was submitted by all State agencies and entered into the system. Without the assistance and cooperation of the State agencies and organizations, the presentation of the following general purpose financial statements would not have been possible.

In the future, CUSAS will be modified to provide GAAP reporting information in addition to the budgetary information it provides, thus reducing the requirements for agency GAAP adjustments related to treasury held funds.

Indians trading with settlers at Fort Dearborn, circa 1820

GAAP Basis

Revenue Analysis

The governmental fund types are those through which most State functions are financed. These fund types include the general, special revenue, capital projects and debt service fund types. These funds are presented on a modified accrual basis of accounting with revenues being recognized when they are both measurable and available to pay liabilities of the current period and are presented net of refunds.

During the past five fiscal years beginning July 1, 1980 and ending June 30, 1985, total revenues have fluctuated significantly. On a GAAP basis, revenues ranged from a low of $10.4 billion during fiscal year 1983 to a high of $13.5 billion during fiscal year 1985. In current dollars, there was an average increase of 6.8% in governmental fund revenues during this period. However, on a constant dollar basis which reflects the reduction in the purchasing power of the dollar due to inflation, revenues experienced an average increase of only 1.7% during the same period.

Taxes were the largest revenue source over the last five years and comprised 66% of total revenues. Revenues from tax sources which include income, sales, public utility, motor fuel and other miscellaneous taxes increased an average of 7.3% during the last five fiscal years on a current dollar basis. In constant dollars, however, the average increase was only 2.1%.

Income taxes, the largest tax source, increased 7.8% and 2.8% on a current and constant dollar basis, respectively. The average increase is primarily due to the temporary tax increase which was enacted during fiscal year 1984. Sales taxes were the second largest tax source and increased an average of 8.4% during the last five years. The State's portion of the sales tax rate which was increased from 4% to 5% on January 1, 1984, is the major reason for the average increase in sales tax revenue. On a current dollar basis, sales tax revenue increased an average of only 3.2%.

Federal government revenues, which is the second largest revenue source, decreased from $2.91 billion in 1981 to $2.79 billion during fiscal year 1983 before increasing to a high of $3.57 billion during fiscal year 1985. This represents an average increase of 5.5% during the five years on a current dollar basis. When considering the inflationary factor in constant dollars, however, the average increase was only 0.5%. The increases are primarily due to increased federal aid for highway construction, public aid, job training and elementary and secondary education.

Other revenues, including licenses and fees, interest and other investment income and miscellaneous other revenues, increased an average of 8.1% and 2.9% in current and constant dollars, respectively.

GAAP Basis

Expenditure Analysis

Expenditures for the governmental fund types are presented on a modified accrual basis of accounting. On this basis, expenditures are recognized in most instances when the related fund liability is incurred, regardless of when cash is expended.

During the past five fiscal years, total governmental fund expenditures have varied on a GAAP basis from a low of $10.6 billion during fiscal year 1982 to a high of $13.1 billion during the fiscal year ended June 30, 1985. In current dollars, expenditures increased an average of 5.3% during the five year period. In constant dollars, however, total governmental fund expenditures merely kept pace with inflation, increasing an average of only 0.3% over the five year span.

Expenditures for education, including elementary and secondary and higher education, were the largest expenditure function during each of the past five years. Although remaining the largest overall expenditure function, educational expenditures experienced the lowest average increase of all GAAP expenditure functions, 1.8%. In constant, or "inflation adjusted" dollars, educational expenditures actually *decreased* by an average of 3.0% during the five year period.

The health and social services expenditure function (medicaid, vocational rehabilitation and children and family services payments) was the second highest expenditure category during the past five years. Although increasing an average of 4.8% during the last five years on a current dollar basis, this expenditure function *decreased* by an average of 0.3% on a constant dollar basis.

General government expenditures, the third largest expenditure function during the five year period which is being analyzed, increased an average of 8.3% and 3.2% on current basis and constant dollar basis, respectively. The general government expenditure increases are primarily due to significant increases in personal property tax replacement revenues which were expended to local government taxing districts during fiscal years 1984 and 1985.

Transportation and social assistance expenditures increased an average of 7.9% and 3.8% respectively over the five year period in current dollars. In constant dollars, transportation expenditures increased an average of 2.9% while social assistance expenditures *decreased* an average of 1.3%.

Other expenditure functions including public protection and justice, natural resources and recreation, debt service and capital outlays constituted less than 12% of the total governmental fund type expenditures over the five year period on a current dollar basis. Only debt service interest had a significant increase, averaging 27.4% on a current dollar basis and 21.6% on a constant dollar basis. This increase is predominantly caused by a classification change during fiscal year 1985 which presents interest paid on income tax refunds as debt service interest rather than as a reduction of revenue.

Other expenditure functions and average percentage increases or (decreases) over the past five years in current and constant dollars, respectively, are as follows: public protection and justice (8.4%, 3.1%), natural resources and recreation (2.3%, (2.7%)), debt service principal (6.1%, 0.9%) and capital outlays (9.9%, 4.4%).

For every Illinois citizen, an average of $989 per year was expended from the governmental funds during the period July 1, 1980 and June 30, 1985, in current dollars on a GAAP basis. The increase in per capita expenditures averaged 5.1% during this period, again in current dollars. In inflation adjusted figures, an average of $340 per year was expended for each Illinois citizen from the governmental funds. In constant dollars, this is an average percentage increase of only 0.1% over the five year period.

Report of Auditor General

Honorable Philip J. Rock, President of the Senate
Honorable Michael J. Madigan, Speaker of the House
Members of the General Assembly
Honorable James R. Thompson, Governor
Honorable Roland W. Burris, Comptroller

We have examined the combined general purpose financial statements of the State of Illinois as of and for the year ended June 30, 1985 as listed in the foregoing table of contents for Section I. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the combined general purpose financial statements of the State of Illinois for the year ended June 30, 1985, listed in the foregoing table of contents for Section I present fairly the financial position of the State of Illinois at June 30, 1985, and the results of its operations and the changes in financial position of its proprietary fund types and its non-expendable trust and pension trust funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The statistical and economic data presented in this report were not audited by us, and, accordingly, we do not express an opinion thereon. The budgetary financial statements and schedules in Section II were examined on behalf of the Auditor General by Touche Ross & Co.

Very truly yours,

Robert G. Cronson

ROBERT G. CRONSON
Auditor General

Over a century ago, America's east and west came together in Illinois as the state became the nation's rail transport center. It remains so today.

Total operating transfers and additions	832,580	18,823	851,403
Total increase (decrease) in fund balances	**$ (27,661)**	**$ 9,188**	**$ (18,473)**

The accompanying notes to the financial statements are an integral part of this statement.

Notes To The Financial Statements

STATE OF ILLINOIS
June 30, 1985

1. Significant Accounting Principles and Policies:

A. Basis of Presentation—The accompanying financial statements of the State of Illinois have been prepared in conformity with generally accepted accounting principles as prescribed in pronouncements of the Governmental Accounting Standards Board ("GASB"). The financial statements of the university and college funds have been prepared in conformity with generally accepted accounting principles for colleges and universities.

B. Financial Reporting Entity—For financial reporting purposes, in conformance with National Council on Governmental Accounting ("NCGA") Statement 3, as recognized by GASB Statement 1, the State of Illinois includes all funds, account groups, elected offices, departments and agencies of the State, as well as boards, commissions, authorities, universities and colleges over which the State's executive or legislative branches exercise oversight responsibility. Oversight responsibility was defined to include the following considerations: selection of governing authority, designation of management, ability to significantly influence operations, accountability for fiscal matters, the scope of an organization's public service, and/or special financing relationships.

Based on the application of the NCGA Statement 3 criteria, the following organizations meet the oversight criteria and are included in the accompanying financial statements.

Financing Authorities

Illinois Housing Development Authority
Illinois Development Finance Authority
Illinois Educational Facilities Authority
Illinois Health Facilities Authority
Illinois Farm Development Authority
Illinois Independent Higher Education Loan Authority
Illinois Building Authority

Universities and Colleges

State-owned Universities and Colleges and their related Foundations and Associations

Retirement Systems

The General Assembly Retirement System
The Judges' Retirement System of Illinois
State Employees' Retirement System of Illinois
Teachers' Retirement System of the State of Illinois
State Universities Retirement System

Others

Illinois State Toll Highway Authority
Bureau of Liquidations, Conservations and Rehabilitations
Medical Center Commission
Illinois State Scholarship Commission

The following organizations have been determined not to be part of the reporting entity after applying the manifestations of oversight, scope of public service, or special financing relationships criteria of NCGA Statement 3 and are therefore excluded from the accompanying financial statements because the State does not control the assets, operations or management of the respective entities:

Local Governments and Special Purpose Districts

- Illinois Port Districts
- Regional Planning Commissions
- Local Civic Center Authorities
- Regional Transportation Authority
- Metropolitan Fair and Exposition Authority
- Local government pension funds including:
  - Chicago Teachers' Pension Retirement System
  - Illinois Municipal Retirement Fund
- Locally controlled community colleges

C. Fund Accounting —The financial activities of the State are organized on a basis of individual funds and account groups, each of which is a separate accounting entity segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with specific regulations, restrictions or limitations.

The financial activities of the State accounted for in the accompanying financial statements have been classified into the following fund categories and account groups:

Governmental Fund Types

General —Transactions related to resources obtained and used for those services traditionally provided by a state government, which are not required to be accounted for in other funds, are accounted for in the General Fund. These services include, among others, social assistance, education (other than institutions of higher education), and health and social services. Certain resources obtained from federal grants and used to support general governmental activities are accounted for in the General Fund consistent with applicable legal requirements. The State's General Fund contains two primary sub-accounts (General Revenue and Common School) with numerous secondary sub-accounts.

Special Revenue —Transactions related to resources obtained from specific revenue sources (other than for expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes are accounted for in special revenue funds. Special revenue funds account for, among others, federal grant programs, taxes levied with statutorily defined distributions, and other resources restricted as to purpose.

Debt Service —Transactions related to resources obtained and accumulated to pay interest and principal on general long-term obligations (other than capital leases, compensated absences, and unfunded retirement costs) are generally accounted for in debt service funds.

Capital Projects —Transactions related to resources obtained and used for the acquisition or construction of major capital facilities including those provided to political subdivisions and other public organizations, which are charged to expenditures (other than those financed by proprietary, fiduciary, and university and college fund types) are accounted for in capital projects funds. Such resources are derived principally from proceeds of general obligation bond issues, federal grants, and operating transfers from the General Fund.

Proprietary Fund Types

Enterprise —Enterprise funds account for operations where the intent of the State is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where periodic measurement of the results of operations is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service —Internal service funds account for the operations of State agencies which render services and provide goods to other State agencies or governmental units on a cost-reimbursement basis.

Fiduciary Fund Types

Trust —

Expendable —Expendable trust funds account for assets held by the State in a trustee capacity where the principal and income may be expended in the course of the funds' designated operations.

Nonexpendable —Nonexpendable trust funds account for assets held by the State in a trustee capacity where only income derived from the principal may be expended in the course of the funds' designated operations. The principal must be preserved intact.

Pension —Pension trust funds account for transactions, assets, liabilities and net assets available for plan benefits of the various State public employee retirement systems.

Agency —Agency funds account for the various taxes, deposits, deductions, and property collected by the State, acting in the capacity of an agent, for distribution to other governmental units or designated beneficiaries.

University and College Fund Type

University and college funds account for the operations of State universities and colleges, including their foundations and associations, in accordance with existing authoritative accounting and reporting principles applicable to universities and colleges. Accordingly, the University and College Fund Type is an aggregation of the following funds:

Current —Current funds account for economic resources of the institution which are expendable for any purpose in performing the primary objectives of the institution and which have not been designated by the governing body for any other purpose. Resources restricted for specific current operating purposes by a donor or other external agency are accounted for as restricted current funds.

Loan —Loan funds account for resources available for loans to students, staff and faculty.

Endowment and Similar —Endowment and similar funds are similar to trust funds in that they must be administered in accordance with the terms of the applicable agreement.

Plant —Plant funds consist of resources available to acquire or repair institutional properties, to service debt incurred to acquire such properties and the cost of fixed assets and the sources from which the cost is funded, including associated liabilities.

The plant funds resources and activities are accounted for in four subgroups which are unexpended, renewals and replacements, retirement of indebtedness and investment in plant.

Agency —Agency funds consist of funds held by the institution acting in the capacity of an agent, for distribution to designated beneficiaries.

Foundations —Foundations and associations have been established to promote and serve the interests and welfare of their respective universities.

Account Groups

General Fixed Assets —General fixed assets acquired or constructed for use by the State in the conduct of its activities, other than those accounted for in proprietary, fiduciary and university and college fund types are accounted for in the General Fixed Assets Account Group.

General Long-Term Obligations —Unmatured general obligation bonds, unfunded retirement costs, and other long-term obligations not recorded in proprietary, fiduciary and university and college fund types are recorded in the General Long-Term Obligations Account Group.

D. Basis of Accounting —

Governmental Fund Types and Expendable Trust and Agency Funds —The accounts of the general, special revenue, debt service, capital projects, expendable trust and agency funds are reported using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when measurable and available to finance operations during the year or liquidate liabilities existing at the end of the year; expenditures and liabilities are recognized upon receipt of goods and services. Significant revenue sources which are susceptible to accrual include individual and corporate income taxes, sales taxes, public utility taxes and motor fuel taxes. Modifications to the accrual basis of accounting include:

- Self assessed taxes, principally income, excise and wealth taxes, are recognized as receivables and revenues in the period to which they apply subject to their availability.
- Fines, penalties, licenses and other miscellaneous revenues are recognized when received since they normally are only measurable at that time.
- Interest on long-term obligations reflected in the General Long-Term Obligations Account Group is recognized in the debt service funds when it becomes payable.

Proprietary Fund Types and Nonexpendable and Pension Trust Funds —The accounts of the enterprise, internal service, nonexpendable trust and pension trust funds are reported using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when incurred.

University and College Fund Type —The accounts of the university and college funds are reported using the accrual basis of accounting with the following exceptions:

- Depreciation expense related to plant fund assets generally is not recorded.
- Revenues and expenditures of an academic term encompassing more than one fiscal year are solely reported in the fiscal year in which the program is predominantly conducted.

E. Eliminations —Eliminations have been integrated into the report only to eliminate the duplicate activities of certain funds and intrafund accounts which would significantly overstate the financial position within the related fund type.

F. Total (Memorandum Only) Columns —Total columns represent an aggregation of the fund type and account group financial statements. They are presented for information only and do not represent consolidated financial information.

G. Budgetary Process —The State Constitution requires the Governor to prepare and submit to the General Assembly an Executive budget for the ensuing fiscal year. The budget covers most funds held by the State, but excludes all locally held funds and various Treasury held funds which are not subject to appropriation pursuant to State law. The General Assembly enacts the budget through the passage of specific line-item appropriations (i.e., personal services, contractual services, equipment, etc.), the sum of which must not exceed estimated revenues pursuant to the State Constitution. The Governor has the power to approve, reduce or veto each appropriation passed by the General Assembly. Transfers in/out contained in the Executive budget are not a part of the General Assembly's appropriation process. The actual amounts are determined either by State law ~~or~~ by discretionary action available to the Governor. The Comptroller's Uniform Statewide Accounting System (CUSAS) controls expenditures by line-item as established in approved appropriation bills and the level of legal control is reported in a publication titled *A Detailed Report of Expenditures and Revenues*. A separate document is necessary since the State has over 6,500 appropriated line items.

Notes

Administrative transfers between certain appropriation line-items within the same treasury-held fund cannot exceed 2% of the aggregate amount appropriated to an agency from that fund. Legislative action is required for more substantial transfers.

Unexpended appropriations are available for subsequent expenditure to the extent that encumbrances have been incurred at June 30, provided they are presented for payment during the succeeding 90 day "lapse period." Certain appropriations referred to as "reappropriations" represent the continuation of a prior year's program which requires additional time for completion.

Budget revenues in the accompanying Combined Statement of Revenues, Expenditures, Other Sources and Uses of Financial Resources and Changes in Budgetary Fund Balances—Budget and Actual (Non-GAAP) represent original estimates, while budgeted expenditures represent original appropriations modified by supplemental and amendatory appropriations aggregating $687 million. Budgets are essentially on the cash basis, modified for expenditures during the lapse period (beginning and end of year) as described in the preceding paragraph.

CUSAS establishes the following budgetary fund groups to account for the State's budgetary activities:

General Purpose—funds established to account for those services traditionally provided by a state government which are not required to be accounted for in other funds.

Highway—funds established to receive and distribute assessments related to transportation, and to support the construction and maintenance of transportation facilities and activities of the State.

University—funds established to receive revenues such as fees, tuition and excess income from auxiliary enterprises at State-supported institutions of higher education.

Special State—funds designated by statute as special funds in the State Treasury and not elsewhere classified.

Bond—funds established to receive and administer the proceeds of various bond issues of the State.

Debt Service—funds established to finance and account for the payment of principal redemption and interest generally associated with the general obligation bond issues of the State.

Federal Trust—funds established pursuant to grants and contracts between State agencies and the federal government.

Revolving—funds established to finance and account for intra-governmental services.

State Trust—funds established by statute or under statutory authority for nonfederal programs which are not deemed to be a traditional governmental activity or elsewhere classified.

H. **Cash Equivalents**—Cash equivalents consist principally of certificates of deposit, repurchase agreements and U.S. treasury bills, and are stated at cost which approximates market value.

I. **Investments**—Investments are stated on the basis of cost. Investment income is recorded as revenue in the General Fund, except for resources of retirement systems and certain other individual funds which are statutorily authorized to be separately invested and specifically credited with the income realized thereon.

Inventories—Inventories are valued at the lower of cost or market, principally on the first-in, first-out and the consumption method.

K. Interfund Transactions —The State has the following types of interfund transactions:

Quasi-external transactions —Charges for services rendered by one fund to another that are treated as revenues of the recipient fund and expenditures or expenses of the disbursing fund.

Reimbursements —Reimbursement of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund.

Residual Equity Transfers —Nonroutine or nonrecurring transfers between funds are reported as additions to or deductions from fund equity.

Operating Transfers —Legally authorized transfers other than residual equity transfers are reported as operating transfers.

L. Property, Plant and Equipment —

General Fixed Assets —General fixed assets are recorded at cost or, for donated assets, at fair market value at date of acquisition. Fixed asset records are used by the State primarily to assure accountability. Historical cost records for certain general fixed assets are incomplete or not available. Accordingly, estimated historical costs have been used. Public domain (infrastructure) general fixed assets such as highways, curbs, bridges, and lighting systems are not capitalized. Depreciation is not provided on general fixed assets nor is interest expenditure incurred during the construction period capitalized.

Proprietary and Fiduciary Fund Types —Property, plant and equipment are stated at cost or, for donated assets, at fair market value at date of acquisition. It is the State's policy to capitalize interest expense incurred on significant assets during their construction. Generally, property, plant and equipment, excluding land, are depreciated on the straight-line method over the estimated service lives of the respective assets as follows:

	Years
Land improvements	20-50
Buildings and building improvements	20-50
Equipment	3-10

University and College Fund Type —Property, plant and equipment are recorded at cost or, for donated assets, at fair market value at date of acquisition. Generally, public domain (infrastructure) assets such as streets, sidewalks, lighting systems and curbs are not capitalized. Depreciation generally is not provided on property, plant and equipment.

M. Retirement Costs —Substantially all State employees, including members of the General Assembly and Judicial Branch, participate in one of three State public employee retirement systems (see Note 9). The State also maintains and funds public employee retirement systems for employees of the various State supported universities and colleges, and for public school teachers in cities other than Chicago. It is the State's policy to fund retirement costs without regard to amounts calculated under the provisions of Accounting Principles Board (APB) Opinion No. 8 and, based on actuarial consultations, generally with the exception of the last four years, fund amounts at least as great as the retirement benefits payable during the year.

Effective July 1, 1980 the State prospectively adopted the provisions of Accounting Principles Board (APB) Opinion No. 8 to determine pension expense. Accordingly, calculated pension expense comprises normal cost plus interest on unfunded prior service cost and amortization of prior service costs over forty years. For the period of change and subsequent years, the excess of pension expense so calculated over amounts funded represent long-term obligations of the State and have been reflected in the General Long-Term Obligations Account Group.

N. Compensated Absences —The amounts of unpaid vacation and sick leave accumulated by State employees are accrued as expenses when incurred in proprietary funds, which use the accrual basis of accounting. In the governmental funds, only the amounts that normally would be liquidated with expendable available financial resources are accrued as current-year expenditures. The State uses the last-in, first-out method of recognizing the use of compensated absences. Employees are charged for the last day of compensated vacation or sick leave earned when the compensated leave is used. Thus, unless it is anticipated that compensated absences will be used in excess of a normal year's accumulation, no additional expenditures are accrued. Therefore, the entire unpaid liability for the governmental funds is recorded in the General Long-Term Obligations Account Group.

O. Encumbrances —The State employs encumbrance accounting for all governmental fund types. All contracts, purchase orders and other commitments for goods or services that have not been received/rendered are reported as reservations of fund balances, not as expenditures.

P. Reservations/Designations of Fund Equity —

Reservations

Governmental and Fiduciary Fund Types —Fund balances of governmental and fiduciary fund types which are legally restricted to a specific future use or that are not available for appropriation or expenditure are reported as reservations of fund balances.

University and College Fund Type —Fund balances of university and college funds which are legally restricted by outside sources to specific future use are reported as reservations of fund balances.

Proprietary Fund Types —Reserved retained earnings of the proprietary funds are legally restricted for the payments of capital maintenance and debt service related to revenue bonds and bond anticipation notes and for other purposes.

Designations

Designations of unreserved fund balances in governmental, fiduciary and university and college fund types indicate the State's plan for use of financial resources in future periods.

Q. Risk Management —Insurance in force on State owned assets is limited except for certain university facilities. Further, the State makes no provision for anticipated losses in the event of involuntary conversions. The State has had no problem in meeting any losses sustained from its current resources in the past, even though no insurance coverage is purchased.

R. Grants —Federal grants and assistance awards made on the basis of entitlement periods are recorded as intergovernmental receivables and revenues when entitlement occurs. All other federal reimbursement type grants are recorded as revenues when the related expenditures or expenses are recorded. Uses of grant resources are conditioned upon compliance with terms of the grant agreements and applicable federal regulations which include the grants being subject to financial and compliance audits.

2. Budgetary Basis Vs. GAAP:

The accompanying Combined Statement of Revenues, Expenditures, Other Sources and Uses of Financial Resources and Changes in Budgetary Fund Balances-Budget and Actual (Non-GAAP), All Budgeted Fund Groups, presents comparisons of the legally adopted budget (more fully described in Note 1G) with actual data on a budgetary basis. Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with generally accepted accounting principles, a reconciliation (amounts expressed in thousands) of resulting basis, perspective, entity and timing differences in the excess (deficiency) of revenues over expenditures/expenses and other sources (uses) of financial resources for the year ended June 30, 1985 is presented below:

Budgetary Fund Groups	**General Purpose**	**Highway**	**University**	**Special State**
Financial Statement Fund Types	**General**		**University and College**	**Special Revenue**
Excess (deficiency) of revenues over expenditures and other sources (uses) of financial resources (budgetary basis)	$ 216,625	$ (18,924)	$ (3,588)	$ 63,846
Adjustments:				
To adjust revenues, related receivables and deferred revenue	129,721	100,111		524,729
To adjust expenditures/expenses and related liabilities	(130,603)	(1,664)		(515,475)
To adjust for lapse period expenditures which were not recorded as liabilities	647	(4,376)		4,076
Excess (deficiency) of revenues over expenditures/expenses and other sources (uses) of financial resources (GAAP basis)—budgetary classifications	216,390	75,147	(3,588)	77,176
Reclassifications and adjustments:				
To reclassify excess (deficiency) of revenues over expenditures/expenses and other sources (uses) of financial resources into financial statement fund types		(75,147)	109	55,296
To record excess (deficiency) of revenues over expenditures/expenses and other sources (uses) of financial resources for nonbudgeted funds and accounts	(328)		160,115	889
Excess (deficiency) of revenues over expenditures/expenses and other sources (uses) of financial resources (GAAP basis)	**$ 216,062**	**$ —**	**$ 156,636**	**$ 133,361**

3. Investments:

Investments (amounts expressed in thousands), of which $7,714 million is attributable to the Pension Trust Funds (see Note 9), at June 30, 1985 consisted of the following:

	Fund Types			
	General	**Enterprise**	**Trust**	**Universities and Colleges**
U.S. Treasury and agency obligations		$ 522,789	$ 1,744,483	$ 76,763
Commercial paper			610,489	19,226
Corporate equity securities			2,925,805	32,696
Corporate debt securities			2,146,211	12,191
Other	$ 110,995		361,813	13,200
	$ 110,995	**$ 522,789**	**$ 7,788,801**	**$ 154,076**

For all of the above amounts, market value approximates cost with the exception of the trust funds where market value approximates $8,318 million.

Bond Financed	Debt Service	Federal Trust	Revolving Funds	State Trust		
Capital Projects	**Debt Service**		**Internal Service**		**Enterprise**	**Nonexpendable Trust**
$ 40,859	$ 20,372	$ (12,685)	$ (2,602)	$ 6,672		
	(90,840)	(8,453)	2,738	(9,242)		
2,677	90,329	8,293	4,518	15,633		
(119)		3,749		(131)		
43,417	19,861	(9,096)	4,654	12,932		
		9,096		(12,932)	$ 5,111	$ 18,467
	1,874		243		84,685	(1)
$ 43,417	**$ 21,735**	**$ —**	**$ 4,897**	**$ —**	**$ 89,796**	**$ 18,466**

4. Taxes Receivable:

Taxes receivable (amounts expressed in thousands) at June 30, 1985 consisted of the following:

	Fund Types			
	General	**Special Revenue**	**Expendable Trust**	**Agency**
Income taxes	$ 122,869	$ 34,703		
Sales taxes	153,187	2,830		$ 63,351
Motor fuel taxes	23	53,334		
Public utility taxes	45,177	7		
Unemployment compensation taxes			$ 341,648	
Other taxes	24,409	5,246		464
	$ 345,665	**$ 96,120**	**$ 341,648**	**$ 63,815**

5. Due From/To Other Funds:

The following balances (amounts expressed in thousands) at June 30, 1985 represent due from/to balances among all funds.

Fund Type/Fund	Due From		Due To	
General		$ 162,281		$ 143,536
Special Revenue:				
State Construction Account		28,616		66
Public Transportation Fund		21,699		
Motor Fuel Tax Fund		20,524		30,351
Local Government Distributive Fund		15,243		
Road Fund		12,577		19,710
Unemployment Compensation Special Administration Fund		6,614		12,582
Downstate Public Transportation Fund		5,005		2,074
Personal Property Tax Replacement Fund				88,546
Tourism Fund				10,801
Other funds		15,223		21,195
		125,501		185,325
Capital Projects				1,484
Enterprise:				
State Lottery Fund				25,597
Other funds		8,803		9,971
				35,568
Internal Service:				
Communications Revolving Fund		15,870		289
Statistical Services Revolving Fund		5,199		144
Other funds		8,760		290
		29,829		723
Trust and Agency:				
Expendable Trust -				
Illinois Unemployment Compensation Trust Fund	$ 14,677		$ 6,614	
Nonexpendable Trust	1		43	
Pension Trust -				
State Employees Retirement System Fund	5,945		21	
Other funds	3,306		43	
	9,251		64	
Agency -				
Group Insurance Premium Fund	1,426		12,331	
Public Assistance Recoveries Trust Fund			15,069	
Other funds	4,260		4,371	
	5,686	29,615	31,771	38,492
Universities and Colleges:				
Current Unrestricted		52,605		6,079
Current Restricted		7,511		5,734
Other funds		5,529		4,733
		65,645		16,546
		$ 421,674		**$ 421,674**

6. Loans and Notes Receivable:

Loans and notes receivable (amounts expressed in thousands) at June 30, 1985 consisted of the following:

	Fund Types				
	General	Special Revenue	Enterprise	University and College	Total
Mortgage loan program		$ 175	$ 962,142		$ 962,317
Student loan program	$ 51	142	105,937	$ 67,089	173,219
Port districts construction	17,094				17,094
School Building Commission construction	11,952				11,952
Small business loan program		7,740			7,740
Other		100		157	257
	29,097	8,157	1,068,079	67,246	1,172,579
Less, allowance for uncollectable accounts		8	16,642	15,474	32,124
Loans and notes receivable, net	**$ 29,097**	**$ 8,149**	**$ 1,051,437**	**$ 51,772**	**$ 1,140,455**

7. Property, Plant and Equipment:

Property, plant and equipment (amounts expressed in thousands) at June 30, 1985 consisted of the following:

	General Fixed Assets Account Group	Fund Types			
		Enterprise	Internal Service	Trust	University and College
Land and land improvements	$ 342,868	$ 1,024,628	$ 335	$ 504	$ 151,469
Buildings and building improvements	861,937	287	10,304	4,640	1,685,600
Equipment	563,535	22,072	57,361	2,427	858,435
Construction in progress	651,160				9,044
	2,419,500	1,046,987	68,000	7,571	2,704,548
Less: Accumulated depreciation		425,713	38,271	2,644	
	$ 2,419,500	**$ 621,274**	**$ 29,729**	**$ 4,927**	**$ 2,704,548**

Changes in general fixed assets (amounts expressed in thousands) for the year ended June 30, 1985 are presented below:

	Balance July 1, 1984	Additions	Deletions/ Net Transfers	Balance June 30, 1985
Land and land improvements	$ 347,154	$ 3,271	$ 7,557	$ 342,868
Buildings and building improvements	846,412	42,126	26,601	861,937
Equipment	466,134	126,096	28,695	563,535
Construction in progress	589,815	144,111	82,766	651,160
	$ 2,249,515	**$ 315,604**	**$ 145,619**	**$ 2,419,500**

Construction in progress (amounts expressed in thousands) included in General Fixed Assets Account Group is composed of the following:

Project	Project Authorization	Expended through June 30, 1985	Committed	Available Authorization
State of Illinois Center	$ 171,302	$ 167,374	$ 2,332	$ 1,59

Total	**$ 903,806**	**$ 651,160**	**$ 93,226**	**$ 159,42**

8. Notes Payable:

The State agencies and authorities listed below generally issue short-term notes, normally secured by specific revenue sources, to provide temporary financing. Outstanding notes payable (amounts expressed in thousands) at June 30, 1985 were as follows:

Agency	Amount Outstanding	Interest Rates	Annual Maturity To
Enterprise-			
State Scholarship Commission	$ 75,825	See Below	Demand
Universities and Colleges	4,844	3% to 13.50%	2009
	$ 80,669		

State Scholarship Commission (Commission) -

The Commission is authorized to issue Student Loan Revenue Notes. The notes and related interest are payable solely from the revenues and other funds of the Commission. On June 30, 1985, the Commission had $76 million of notes outstanding due no later than one year after the date issued or upon demand. The interest rate is 69.875% of the weekly 91-day U.S. Treasury Bill rate, with a maximum interest rate of 12.212%.

Subsequent to June 30, 1985, the Commission issued new revenue notes in exchange for Series W notes in the amount of $5 million. These notes were due one year after issued, on demand, or the first business day of the month following any regular meeting of the Commission if the prime interest rate exceeds 16.107%, with a maximum interest rate of 11.275%. However, in September, 1985, the Commission issued notes in exchange for all outstanding notes in the amount of $76 million. These notes are due January 11, 1999, on demand, or on the first business day of the month following any regular meeting of the Commission if the prime interest rate exceeds 16.232%, with a maximum interest rate of 11.362%.

Universities and Colleges -

Universities and colleges have issued notes payable aggregating $5 million at June 30, 1985. The notes are generally secured through revenues (i.e., lease payment agreements) derived from the operations of the projects constructed, although portions of the notes outstanding are unsecured.

9. Retirement Systems:

The State of Illinois sponsors the following defined benefit public employee retirement plans:

- State Employees' Retirement System of Illinois (SERS)—established in 1944 to provide coverage to substantially all employees of the State (excluding universities).
- Teachers' Retirement System of the State of Illinois (TRS)—established in 1939 to provide coverage to teachers employed by public school districts in Illinois (excluding Chicago).
- State Universities Retirement System (SURS)—established in 1941 to provide coverage to faculty and staff of State universities, community colleges and related agencies.
- Judges' Retirement System (JRS)—established in 1941 to provide coverage to substantially all judges of the Supreme Court, Appellate Courts, Circuit Courts and Court of Claims.
- General Assembly Retirement System (GARS)—established in 1947 to provide coverage to all members of the General Assembly and certain elected State officials.

hese systems provide for employee contributions, based on fixed percentages ranging from 4% o 11% applied to an employee's annual compensation, supplemented by contributions provided y the State. Funding by the State is determined by the budgetary process and is based, in part, n actuarial consultations, generally without regard to pension cost calculated in accordance with he provisions of APB Opinion No. 8 (see Note 1M). The amounts by which pension cost so alculated exceeded amounts funded, aggregating $484 million for the year ended June 30, 1985, ave been reflected in the General Long-Term Obligations Account Group and presented in hanges in Long-Term Obligations (see Note 14).

Notes

As of the most recent valuation date, the actuarial present value of accumulated plan benefits for all plans exceeded market value of net assets available for benefits by $4,956 million. The actuarially determined accrued benefit cost for all plans exceeded net assets available for benefits by $7,287 million for the plans presented below.

The following table summarizes various information by plan (amounts expressed in thousands except for employee groups covered) as of June 30, 1985:

	SERS	TRS	SURS	JRS	GARS	Total
Employee groups covered - Number of active employees	71,647	97,000	48,447	782	190	218,066
Number of participants	126,182	167,104	67,005	1,115	480	361,886
Actuarial present value of accumulated plan benefits —						
Vested-participants currently receiving benefits	$ 1,182,671	$ 3,129,567	$ 984,656	$ 157,415	$ 24,943	
Vested-other	1,484,152	3,198,354	2,110,760	95,678	7,190	
Nonvested benefits	163,954	453,860	252,093	64,953	29,904	
Total actuarial present value of accumulated plan benefits	2,830,777	6,781,781	3,347,509	318,046	62,037	
Market value of net assets available for benefits	1,748,373	4,598,062	1,903,413	111,029	23,690	
Excess of actuarial present value of accumulated plan benefits over market value of net assets available for benefits	$ 1,082,404	$ 2,183,719	$ 1,444,096	$ 207,017	$ 38,347	
Percentage of net assets available for benefits to actuarial present value of accumulated plan benefits	62%	68%	57%	35%	38%	
Participant contributions refundable generally without interest upon terminations of employment other than normal retirement	$ 554,823	$ 1,493,719	$ 1,018,209	$ 33,683	$ 3,898	
Actuarial cost method —						
Actuarially determined accrued benefit costs	$ 2,868,640	$ 7,981,610	$ 3,761,856	$ 472,497	$ 58,663	
Net assets available for benefits	1,707,451	4,265,310	1,752,292	108,210	23,251	
Excess of actuarially determined accrued benefit costs over net assets available for benefits	$ 1,161,189	$ 3,716,300	$ 2,009,564	$ 364,287	$ 35,412	

Plan investments at June 30, 1985, by major class, stated at market and cost (amounts expressed in thousands) were as follows:

	SERS		TRS		SURS	
	Market	Cost	Market	Cost	Market	Cost
U.S. Treasury and agency obligations	$ 387,191	$ 387,643	$ 1,403,867	$ 1,326,648	$ 440,556	$ 425,24
Commercial paper	387,855	387,855			192,882	192,69

	$ 1,729,174	$ 1,688,252	$ 4,501,390	$ 4,168,638	$ 1,877,068	$ 1,725,94

	SERS		TRS		SURS		JRS		GARS		Total
985 Net Funding deficit —											
1985 Retirement costs calculated in accordance with APB Opinion No. 8	$	224.759	$	437.114	$	232.078	$	14.590	$	1.958	$	910.499
Pension contribution funded by the State		94.457		237.590		83.483		8.528		2.216		426.274
1985 Net Funding deficits (surplus) included in the accompanying financial statements as other long-term obligations	$	130.302	$	199.524	$	148.595	$	6.062	$	(258)	$	484.225

The change in unfunded pension cost for the year is presented in Note 14.

Present value of accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the plans' provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their average compensation during the years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided under annuity contracts are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits for each plan has been determined by consulting actuaries. This amount results from applying actuarial assumptions to adjust the total accumulated plan benefits to reflect the time value of money (through discounts for interest at the rates shown below) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The most recent valuation date for all plans was June 30, 1985, except for SURS for which the date was August 31, 1985. All plans use the entry age normal cost method with the exception of TRS which uses the attained age normal cost method with unit credit past service. Assumed rates of return on investments ranged from 6% to 8%, and assumed salary increases taken into account in determining plan obligations under the actuarial cost method ranged from 5% to 8%. Various mortality tables were used, and the rate of turnover without vested benefits assumed a high scale at younger age levels, becoming progressively lower as age advances, consistent with the plans' experience. The actuarial valuation for the SERS plan reflects the increase in the interest assumption from 7.5% to 8% and the decrease in the level of increase of future salaries from 7.5% to 6.5%. The effects of these changes decreased the actuarial accrued benefit cost by $637 million. The current valuation of the SERS plan also reflects the impact of legislation passed by the 84th General Assembly which extended an alternative benefit formula to certain employees, changed he commencement age for the automatic benefit increase to age 55 for employees who retire under the alternative formula, and granted a one time increase to those employees who retired under the alternative formula before the effective date of the legislation. These changes accounted for a $65 million increase in the actuarial accrued benefit cost. There were no significant amendments to any of the other plans during fiscal year 1985.

he State has not expressed any intention to discontinue its contributions and close the plans' nrollment. However, it would be able to do so, subject to the constitutionally vested rights of plan participants, by appropriately amending State law.

10. General Obligation Bonds:

General obligation bonds have been authorized and issued primarily to provide funds for acquisition and construction of capital facilities for higher education, public and mental health, correction and conservation purposes and for maintenance and construction of highway and waterway facilities. Bonds have also been issued to provide assistance to municipalities for construction of sewage treatment facilities, port districts, local schools, mass transportation and aviation purposes, and to fund research and development of coal as an energy source. Also, bonds have been authorized to refund any general obligation bonds outstanding.

The State Constitution provides that the State may issue general obligation bonds for specific purposes in such amounts as provided either by the General Assembly with a three-fifths vote of each house or by a majority of voters in a general election. The enabling acts pursuant to which the bonds are issued provide that all bonds issued thereunder shall be direct obligations of the State of Illinois and pledge the full faith and credit of the State. General obligation bonds are redeemed over a period not to exceed 30 years, generally from available resources in the debt service funds. However, the State of Illinois has generally issued 25 year serial bonds with equal amounts of principal maturing each year. Additionally, Illinois offerings, with the exception of anti-pollution bonds, have call provisions providing for early redemption at the option of the State, generally beginning 15 years following the date of issue in the inverse order of maturity, in whole or in part, at a redemption price not to exceed 103% of par value.

General obligation bonds outstanding and bonds authorized but unissued (amounts expressed in thousands) at June 30, 1985, were as follows:

	Outstanding		
Purpose	**Interest Rates**	**Amount**	**Authorized but Unissued**
Capital Development	3.25% to 12.0%	$ 1,425,160	$ 257,232
Transportation	3.50% to 12.0%	1,329,400	768,000
Anti-Pollution	3.50% to 12.0%	440,840	131,000
School Construction	3.50% to 12.0%	226,800	90,000
Coal Development	4.80% to 12.0%	31,200	35,000
Public Welfare	3.0%	16,000	
University Building	3.0%	17,600	
Refunding			200,000
		$ 3,487,000	**$ 1,481,232**

Changes in general obligation bonds during the year ended June 30, 1985 are summarized in Note 14.

Future general obligation debt service requirements (amounts expressed in thousands) at June 30, 1985 were as follows:

Year Ending June 30	Principal	Interest	Total
1986	$ 206,500	$ 246,896	$ 453,396
1987	206,500	232,338	438,838
1988	198,700	217,985	416,685
1989	192,700	203,987	396,687
1990	192,700	190,268	382,968
Thereafter	2,489,900	1,432,509	3,922,409
	$ 3,487,000	**$ 2,523,983**	**$ 6,010,983**

The State entered into agreements on September 1, 1985 to issue $150 million of general obligation bonds. The bonds mature serially through 2010 at interest rates ranging from 7.40% to 9.0%.

Direct limited obligation bonds -

Subsequent to June 30, 1985, legislation was enacted to authorize the State to issue $948 million of direct limited obligation bonds, exclusive of any refunding bonds, for the Build Illinois Program. This program has been implemented to increase construction, economic development and employment, educational programs and conservation of environmental and natural resources throughout the State. These bonds are payable primarily from a dedicated portion of the State's sales tax for a period of not more than 30 years. On September 15, 1985, $100 million of such bonds were issued with interest rates ranging from 5.6% to 9.375% and a final maturity of June 15, 2015.

11. Revenue Bonds:

The State Constitution empowers certain State agencies and authorities to issue bonds that are not supported by the full faith and credit of the State. These bonds pledge income derived from acquired or constructed assets to retire the debt and service related interest. In addition, certain authorities have issued debt which is classified as "no commitment" debt of the State.

Revenue bonds issued by individual agencies are supported by fees, rentals and tolls assessed to users. Issuing agencies include the Illinois Housing Development Authority (Housing Development, Mortgage Finance, Multi-Family Housing, Single Family Mortgage and Insured Mortgage Housing Development Bonds), State Scholarship Commission (Student Loan Revenue Bonds), Illinois State Toll Highway Authority (Construction Revenue Bonds) and Board of Governors, Board of Regents, Southern Illinois University and the University of Illinois (University Revenue Producing Facilities Construction Bonds).

Bonds outstanding (amounts expressed in thousands) at June 30, 1985, net of unamortized discounts, were as follows:

Agency		Amount Outstanding	Interest Rates	Annual Maturity To
Enterprise				
Illinois Housing Development Authority	$	1,460,854	5.00% to 13.75%	2028
State Scholarship Commission		80,501	4.80% to 10.60%	1994
Illinois State Toll Highway Authority		204,354	3.75% to 6.75%	2008
		1,745,709		
niversity and College				
Board of Governors of State Colleges and Universities		52,920	6.00% to 7.50%	2013
Board of Regents		64,129	2.00% to 11.10%	2019
Southern Illinois University & Foundation		26,090	5.00% to 10.25%	2007
University of Illinois		62,642	7.00% to 9.70%	2009
		205,781		
	$	**1,951,490**		

hanges in revenue bonds during the year ended June 30, 1985 are summarized in Note 14.

Revenue bond debt service requirements, principal and interest, (amounts expressed in thousands) as of June 30, 1985 were as follows:

Year Ending June 30	Enterprise			University and College		Total	
	Principal		Interest	Principal	Interest	Principal	Interest
	Variable	Fixed					
1986	$ —	$ 39,989	$ 151,321	$ 2,882	$ 11,330	$ 42,871	$ 162,651
1987	—	47,397	148,226	2,892	11,021	50,289	159,247
1988	200	30,010	145,205	3,157	10,828	33,367	156,033
1989	200	31,705	143,001	3,738	10,403	35,643	153,404
1990	200	33,795	140,589	3,932	9,924	37,927	150,513
Thereafter	29,200	1,613,050	2,334,499	189,180	106,217	1,831,430	2,440,716
	$ 29,800	**$ 1,795,946**	**$ 3,062,841**	**$ 205,781**	**$ 159,723**	**$ 2,031,527**	**$ 3,222,564**

The Illinois Housing Development Authority has issued variable rate housing bonds for which accurate future interest payments cannot be determined and, therefore, not included in the above amounts.

Total principal debt service requirements include bond discounts of $80 million.

Illinois Housing Development Authority (IHDA) —

The IHDA was created in 1967 to increase the production of low and moderate income housing in Illinois by providing mortgage loans. The IHDA is authorized to have bonds and notes outstanding in an aggregate principal amount not to exceed $1,700 million exclusive of refunding issues. However, subsequent to July 1, 1985, the outstanding authorization was increased to $2,700 million. Bonds issued must mature within 50 years from the date of issue, bearing interest rates as determined by the Authority. Subsequent to July 1, 1983, the maximum interest rate cannot exceed 11% or 70% of the prime rate, whichever is greater. All revenue bonds issued to provide mortgage loans are secured by first mortgage liens on the related developments.

In the event that IHDA determines that funds will not be sufficient for the payment of the principal of and interest on its bonds during the next succeeding State fiscal period, the Chairman of IHDA shall certify to the Governor on or before September of the then current State fiscal period the amount required by IHDA to enable it to pay such principal and interest. The Governor shall include the amount so certified in the State budget; however, the General Assembly has no obligation to appropriate funds for IHDA.

At June 30, 1985 bonds outstanding aggregated $1,540 million, before unamortized discounts of $79 million. Sinking funds pursuant to bond regulations at year end aggregated $9 million. The bonds mature annually through 2028, bearing interest from 5.0% to 13.75%. The bonds provide for early redemption at the option of IHDA, in whole or in part, in inverse order of maturity at varying premiums which decrease periodically.

Subsequent to June 30, 1985, IHDA issued Residential Mortgage Revenue Bonds totaling $275 million, maturing annually from 1987 through 2017. Interest rates on $261 million of the bond issue range from 6.0% to 9.375%. The remainder of the issue are capital appreciation bonds which will accrete in value to yield at maturity $5,000 per original investment of $190.27.

State Scholarship Commission (Commission) —

The Commission issues student loan revenue bonds, the proceeds of which are used to purchase student loans from eligible lenders. The bonds mature annually in varying amounts, bearing interest ranging from 4.8% to 10.6%. Bonds outstanding exclusive of refunding issues may not exed $175 million ($81 million was outstanding at June 30, 1985 net of unamortized discounts). wever, subsequent to July 1, 1985, the outstanding authorization was increased to $350 llion. All student loans purchased by the Commission are pledged as collateral for the bonds, and losses are guaranteed as to principal and interest by the Commission's Guarantee Loan Program, which can be subrogated to the United States Department of Education.

The bond resolutions provide for early retirement for bonds maturing on or after March 1, 1985 at 102% of par, with the premium decreasing periodically until March 1, 1992, after which unmatured bonds can only be retired at par value. Pursuant to the bond resolutions, reserves for bond retirement and interest payments aggregated $24 million at June 30, 1985.

Subsequent to June 30, 1985, the Commission issued $55 million of Student Loan Revenue Bonds Series E, maturing annually from 1986 to 1996 at interest rates from 5.5% to 8.8%.

Illinois State Toll Highway Authority (THA) —

The THA issued revenue bonds to finance construction of the State toll highway system. The bond resolutions provide for early redemption at the option of the THA, in whole or in part, at a cost not to exceed 103.25% of par value, declining periodically through December 31, 1999. All unmatured bonds outstanding at January 1, 2000 are redeemable thereafter at par. In accordance with the provisions of the bond resolutions, interest reserves on deposit with and invested by the State Treasurer at June 30, 1985 aggregated $23 million.

Board of Governors, Board of Regents, Southern Illinois University and University of Illinois —

The Board of Governors of State Colleges and Universities, the Board of Regents, Southern Illinois University and the University of Illinois (hereinafter the "Boards"), as empowered by enabling acts, have issued various revenue bonds to support construction of student housing and other revenue producing facilities at State universities. These bonds do not constitute general obligations of either the State of Illinois or the Boards but, together with interest thereon, are payable solely from and are secured by, subject to the prior pledge and lien of existing refunded bonds, (i) the net revenues of the Boards; (ii) debt service grants; (iii) income received from certain special accounts; (iv) retained tuition fees (subject to prior payment of related operating and naintenance expenses); (v) certain debt service reserves; (vi) certain repair and replacement eserves; and (vii) the principal of the special accounts arising on refundings, all as defined in the arious bond resolutions. In accordance with provisions of the bond resolutions, debt service inds and reserves on deposit aggregated $42 million at June 30, 1985. The bonds are callable rior to their maturity in accordance with the provisions of the bond resolutions, including remiums of up to 4%.

bsequent to June 30, 1985, the Boards issued revenue bonds. Illinois State University issued Ilois State University Auxiliary Facilities System Insured Revenue Refunding Bonds Series 1985B the principal amount of $22 million. The interest rate for the current interest bonds, in the nount of $10 million, is 9.27% with principal maturing semi-annually from 2005 to 2007. The inrest rates in the capital appreciation portion of the bond issue, in the amount of $12 million from 7.75% to 9.25% with principal maturing semi-annually from 1992 to 2004. These nds do not pay current interest but accrete in value until maturity. In addition, the University ued Illinois State University Auxiliary Facilities System Variable Rate Demand Revenue Bonds ries 1985A in the principal amount of $14 million. The interest rate is determined by the marketing agent to be the rate that would enable the bonds to be sold at par; however, not to ceed 11.38% with principal maturing semi-annually from 1986 through 1992.

rthern Illinois University issued Northern Illinois University Auxiliary Facilities System Revenue nds Series 1985 in the principal amount of $26 million. Interest rates on these capital appeciation bonds range from 7.25% to 10.2% with principal maturing semi-annually from 1989 ough 2013. These bonds do not pay current interest but accrete in value until maturity.

e University of Illinois issued University of Illinois Revenue Bonds Series 1985B in the principal ount of $2 million. These bonds mature semi-annually from 1986 to 1996 with interest rates ranging from 6.25% to 8.9%. The University also issued University of Illinois Auxiliary Facilities System Revenue Bonds Series 1985 in the principal amount of $57 million with principal maturing semi-annually from 1985 through 2009 and interest rates ranging from 5% to 8%.

Defeased Bonds —

The Illinois Building Authority (IBA) on May 1, 1984, effected net defeasance for all bond series which were gross defeased in prior years, and the bond series issue of February 1972, by depositing cash of $89 million with an escrow trustee for the purchase of U.S. Government obligations. The unpaid principal of the gross defeased bond series and the February 1972 bond series totaled $111 million. Cash from the maturity of the U.S. Government obligations and interest earnings thereon will be used to pay all the principal, interest and administrative expenses as they become due. On October 1, 1982, the Board had effected net defeasance for four bond series. As of June 30, 1984, all bond series of the IBA have been net defeased.

For financial reporting purposes, the net defeased series of bonds at June 30, 1985 are considered to be extinguished, and the unpaid principal on these bond series, amounting to $150 million, is not included in the financial statements.

In addition to the IBA, State universities consisting of Eastern Illinois University, Western Illinois University, Northern Illinois University, Southern Illinois University, and the University of Illinois have at June 30, 1985, refunded bonds outstanding of $289 million. These bonds have interest rates ranging from .05% to 8.00% with principal maturing until 2011. The refunded bonds are defeased and not included in the financial statements.

No Commitment Debt (not included in financial statements) —

The State of Illinois by action of the General Assembly created various authorities for the express purpose of providing private entities with an available low cost source of capital financing for construction of facilities deemed to be in the public interest. Fees are assessed to recover related processing and application costs incurred. The bonds of the authorities represent limited obligations payable solely from payments made by the borrowing entities. The majority of the bonds are secured by the property financed. Upon repayment of a bond, ownership of acquired property transfers to the entity served by the bond issuance. The State has no obligation for this debt. Accordingly, these bonds are not reflected in the accompanying financial statements.

At June 30, 1985 revenue bonds, net of defeased bonds, and notes outstanding (amounts expressed in thousands) by authority were as follows:

Authority		Outstanding Amount	Interest Rates	Annual Maturity To
Illinois Health Facilities Authority		$ 1,711,020	5.00% to 14.25%	2022
Illinois Development Finance Authority:				
Environmental Facilities	$ 1,310,359		4.50% to 12.00%	2015
Industrial Development	251,928		6.75% to 13.00%	2017
		1,562,287		
Illinois Educational Facilities Authority		606,324	4.85% to 13.25%	2025
Illinois Independent Higher Education Loan Authority		75,100	Variable	2007
Illinois Farm Development Authority		67,737	Variable	2025
		$ 4,022,468		

12. Advances To Pay Unemployment Compensation Benefits:

From fiscal years 1976 to 1983, unemployment compensation benefit claims paid from the State Unemployment Compensation Trust Fund (Fund) significantly exceeded employer contributions. In order to continue operations of the Fund, the State received advances from the U.S. Treasury. Those advances received prior to April 1, 1982 were without penalty while advances subsequent to April 1, 1982 have been assessed a penalty at an annual rate of approximately 10% payable on September 30 of each year. At June 30, 1985, outstanding advances aggregated $1,258 million. During the year ended June 30, 1985, the Fund received additional advances of $512 million and made repayments of $1,186 million. Additional advances and repayments during the period from July 1 to December 31, 1985 aggregated $30 million and $166 million, respectively.

Advances from the U.S. Treasury are to be repaid from future State unemployment taxes and an escalating surtax on federal unemployment taxes. Repayments from the federal surtax (aggregating $183 million for fiscal year 1985) are applied first against non-penalty assessed advances. Penalty payments on advances subsequent to April 1, 1982 are a liability of the State and may not be paid from the Fund. During fiscal year 1985 the State paid penalties aggregating $28 million on such advances (see Note 13).

13. Other Long-Term Obligations:

Compensated Absences —

Employees earn annual leave ranging from 1 to 2 days per month with maximum accumulation ranging from 20 to 50 days. At June 30, 1985, the liability for accrued annual leave was approximately $120 million for the governmental funds. Until January 1, 1984, sick leave, which generally is earned one day per month with unlimited accumulation, was paid only when an employee was absent due to illness or other acceptable circumstances as outlined by personnel regulations. Effective January 1, 1984, upon death, retirement, resignation or termination from state employment, employees are able to receive payment for one-half of accumulated sick leave earned subsequent to January 1, 1984, or full service credit for such accumulated sick leave under the State Employees Article of the State Pension Code. At June 30, 1985, the liability for sick leave earned subsequent to January 1, 1984 was $40 million. Thus, the State of Illinois' liability for compensated absences reported in the General Long-Term Obligations ount Group amounted to $160 million at June 30, 1985.

Lease Commitments —

The State leases land, office facilities, office and computer equipment and other assets. Although lease terms vary, certain leases are renewable subject to appropriation by the General Assembly. renewal is reasonably assured, leases requiring appropriation by the General Assembly are nsidered noncancellable leases for financial reporting purposes.

June 30, 1985, capitalized leases included in property, plant and equipment (amounts pressed in thousands) were as follows:

	Proprietary Fund Types	University and College Fund Type	General Fixed Assets
d and land improvements		$ 704	
ldings and building improvements		3,347	$ 2,725
uipment	$ 9,039	35,805	59,154
	9,039	39,856	61,879
s: Accumulated amortization	5,353		
	$ 3,686	**$ 39,856**	**$ 61,879**

Future minimum commitments for noncancellable leases (amounts expressed in thousands) as of June 30, 1985 were as follows:

		Capitalized Leases			
Year Ending June 30	**Operating Leases**	**Proprietary Fund Types**	**University and College Fund Type**	**General Long-Term Obligations**	**Total**
1986	$ 33,159	$ 7,143	$ 9,558	$ 17,287	$ 67,147
1987	22,355	3,290	7,927	12,340	45,912
1988	16,707	269	5,126	8,518	30,620
1989	8,680	209	3,261	5,324	17,474
1990	3,228	77	1,084	3,723	8,112
Thereafter	2,200		776	5,468	8,444
Total minimum lease payments . .	**$ 86,329**	10,988	27,732	52,660	**$ 177,709**
Less amounts representing:					
Executory costs . . .		42		1,363	
Interest		177	4,279	10,943	
Present value of net minimum lease payments		**$ 10,769**	**$ 23,453**	**$ 40,354**	

Metropolitan Fair and Exposition Authority (McCormick Place) -

In July, 1984, the State amended the "Metropolitan Fair and Exposition Authority Act" to authorize the issuance of $265 million of additional bonds for (1) construction costs to complete the McCormick Place expansion, (2) to pay the construction costs of projects which may be authorized by the Illinois General Assembly in the future, and (3) to refund outstanding revenue bonds of the Authority.

In 1984, the Illinois General Assembly amended certain tax laws, resulting in 1.55% of total State sales tax revenues, 3% of 94% of total hotel room rental receipts, and $1.7 million per year out of the 7% of State racing tax revenues, to be deposited into the Tourism Fund, as collected. This 1984 legislation provides for credits to separate accounts within the Tourism Fund of which the "McCormick Place Account" is one and has first priority credit of the amounts collected.

The Authority issued $252 million of bonds in August, 1984 at interest rates varying between 7% to 10.375% that mature in varying amounts annually for $32 million through 1996 and optional annually thereafter to 2014. The amount of outstanding principal as of June 30, 1985 is $252 million.

Subsequent to June 30, 1985, legislation was enacted to (a) increase the bond authorization to $312.5 million for additional financing of the McCormick Place expansion program (b) create the Build Illinois Fund to replace the Tourism Fund and (c) increase the State sales tax deposited into the "McCormick Place Account" from 1.55% to 1.75% effective July 1, 1986.

In December, 1985, the Authority issued $60 million of Dedicated State Tax Revenue Bonds. These bonds mature annually from 1987 through 2015 with interest rates ranging from 6% to 8.875%.

etropolitan Exposition Auditorium and Office Building Authorities -

The General Assembly, through adoption of the "Metropolitan Civic Center Support Act" (Support Act), created the Metropolitan Exposition Auditorium and Office Building Fund (Fund) into which 33.5% of all monies received by the State as horse racing taxes are deposited. At June 30, 1985, the balance of the Fund was $16.7 million. The purpose of the Fund is to secure and retire a proportionate share of locally issued revenue bonds, the proceeds of which were used to construct local civic and exposition centers. Under the Support Act, State supported contract payments outstanding may not exceed the aggregate principal amount of $75 million and further restrictions exist as to the amount to be committed on behalf of any single taxing authority.

At June 30, 1985, State supported guarantees pursuant to the Support Act (amounts expressed in thousands) were as follows:

Authority	Amount Outstanding	Interest Rates	Annual Maturity To
Rockford	$ 13,935	7.0 % to 11.0 %	2003
Peoria	12,000	5.50% to 6.50%	1997
Springfield	11,563	6.50% to 6.60%	1996
Joliet	8,775	8.75% to 11.25%	2003
Decatur	7,260	4.75% to 9.25%	1997
Aurora	6,180	5.50% to 6.50%	1997
DeKalb	3,175	8.40% to 10.85%	2003
Danville	2,990	5.0 % to 5.8 %	1997
	$ 65,878		

Since the State has an obligation pursuant to contracts with local authorities, the outstanding contract principal has been recorded as a liability in the General Long-Term Obligations Account Group. At June 30, 1985, future contract payment requirements relating to liabilities outstanding pursuant to the Support Act (amounts expressed in thousands) were as follows:

Year Ending June 30	Principal	Interest	Total
1986	$ 4,768	$ 4,758	$ 9,526
1987	4,813	4,421	9,234
1988	4,860	4,081	8,941
1989	4,912	3,735	8,647
1990	4,965	3,387	8,352
Thereafter	41,560	16,166	57,726
	$ 65,878	**$ 36,548**	**$ 102,426**

ubsequent to June 30, 1985, the Support Act was amended to (a) provide State financial support by issuing direct, limited, obligation, revenue bonds in the total amount of $100 million for dvanced refunding of any civic center bond issued before July 1, 1985 or for newly certified pplicants after July 1, 1985 and (b) increase the limitation from $75 million to $100 million for evious applicants. On December 15, 1985, $90 million of these bonds were isssued at interest tes varying between 6.0% to 9.5% with principal maturing annually from 1986 through 2015.

Springfield Airport Authority (Authority) —

The Authority has constructed offices, aircraft hangers, service buildings and other related facilities at the Springfield airport which are owned and operated by the Authority for the use of State agencies under a lease agreement. The Authority secured the funds required for the construction of such improvements through the issuance of $2.7 million of revenue bonds bearing interest rates from 5.20% to 6.602%. The Authority in turn entered into an agreement with the State of Illinois extending through May 1, 2003, with renewable terms. The State makes rental payments sufficient to pay bond principal, interest and reserve fund payments and to cover costs of operating, maintaining and insuring the facilities. The outstanding principal amount to be paid to the Authority by the State at June 30, 1985 was $2.545 million.

Deferred Liability on Federal Advances —

In accordance with federal regulations, the State has decided to defer 80% of the penalty due on federal advances to pay unemployment compensation benefits. Amounts deferred must be repaid from other than resources of the Unemployment Compensation Trust Fund in four equal annual installments on the September 30 following the date of deferral. Interest does not accrue on the deferred penalty. At June 30, 1985, the deferred liability (amounts expressed in thousands) aggregated $123 million, payable on October 1 as follows:

	1985	1986	1987	1988	1989
Amounts	$32,908	$32,907	$32,907	$19,730	$4,487

The option to defer the penalty was available under federal regulations for penalty payments due September 30, 1983, 1984 and 1985. The State anticipates repaying future federal advances before any penalty accrues.

Civic Center Authorities Interest Income Settlement —

As a result of the Illinois Supreme Court case titled "Springfield Metropolitan Exposition and Auditorium Authority v. Castle," the State of Illinois compromised with the various civic center authorities to pay amounts equivalent to the monies that were earned by the investment of the proceeds of the issued bonds. The outstanding principal amount to be paid by the State to the authorities as of June 30, 1985 was $1.8 million.

City of Collinsville —

Subsequent to June 30, 1985, the City of Collinsville (City) secured funds to construct a State office complex to be used by the Department of Transportation, the Department of State Police and the Department of Central Management Services by issuing revenue bonds in the amount of $15.315 million. Interest rates on the bonds range from 6.5% to 9.5% with principal maturing annually from 1988 through 2005. The City in turn entered into a lease purchase agreement with the State of Illinois to pay bond principal, interest, and deficiency in the Debt Service Reserve Fund and the Renewal and Replacement Fund and costs of operating, maintaining and insuring the facilities.

Changes in other long-term obligations for the year ended June 30, 1985 are summarized in Note 14.

14. Changes In Long-Term Obligations:

Changes in long-term obligations (amounts expressed in thousands) for the year ended June 30, 1985 are summarized as follows:

	Notes Payable (Note 8)	Accrued Retirement Costs (Note 9)	General Obligation Bonds (Note 10)	Revenue Bonds (Note 11)	Other Long-Term Obligations (Note 13)
Balance at July 1, 1984	$ 135,957	$ 1,483,208	$ 3,329,500	$ 1,644,285	$ 332,723
Compensated absences earned					170,465
Debt issues	76,086		350,000	492,596	252,450
Penalty costs on Federal government advances					41,489
Increase in lease obligations					25,550
Compensated absences taken					(130,432)
Amortization of bond discounts and bond issuance costs				4,018	
Increase in accreted value of capital appreciation bonds				7,847	
Principal retirements, terminations and defeased bonds	(131,374)		(192,500)	(197,256)	(46,306)
Excess of actuarially determined retirement costs computed in accordance with APB Opinion No. 8 over amounts recorded as expenditures in governmental fund types		484,225			
Balance at June 30, 1985	**$ 80,669**	**$ 1,967,433**	**$ 3,487,000**	**$ 1,951,490**	**$ 645,939**

15. Fund Deficits:

The Drivers Education Fund of the State Board of Education (reported as a special revenue fund) has a deficit at June 30, 1985 aggregating $6.6 million, resulting from reimbursement to school districts for drivers education program costs incurred in the current year but not paid until the subsequent year.

The Illinois Unemployment Compensation Trust Fund (reported as an expendable trust fund) has deficit at June 30, 1985 aggregating $924 million, resulting from an excess of benefit claims aid over employer contributions (see Note 12).

16. Segment Information — Enterprise Funds:

Selected financial information by enterprise fund segment (amounts expressed in thousands) is as follows:

	Department of Revenue	Housing Development Authority	State Toll Highway Authority	State Scholarship Commission	Other	
	State Lottery (1)	(2)	(3)	Designated Account Purchase Program (4)	(5)	Totals
Operating revenues	$ 1,205,155	$ 142,408	$ 174,133	$ 19,311	$ 30,109	$ 1,571,116
Depreciation	216	151	37,348	152	108	37,975
Operating income	515,384	7,787	68,954	4,292	4,923	601,340
Operating transfers-in		11,206				11,206
Operating transfers-out	510,291	11,206			549	522,046
Nonoperating revenues					9	9
Nonoperating expenses			711		2	713
Net income	5,093	7,787	68,243	4,292	4,381	89,796
Current capital, transfers					504	504
Property, plant and equipment additions	222	3,011	70,724	49	395	74,401
Net working capital	12,492	425,599	68,690	35,248	21,683	563,712
Total assets	60,931	1,689,962	737,645	177,868	34,200	2,700,606
Bonds and other long-term liabilities payable from operating revenues		1,460,903	204,354	156,326	45	1,821,628
Total equity	12,704	68,553	505,379	18,655	30,680	635,971

The following activities generate enterprise fund revenues:

(1) Illinois State Lottery revenues and operations.
(2) Operation and maintenance of programs for financing construction of low and moderate income housing developments, including income from investment of funds on hand.
(3) Toll fees to cover the operation and maintenance of the State toll highway system.
(4) Service and processing fees for delinquent student loans.
(5) Service and processing fees charged by the following Departments, Authorities, and Commissions for their operations:

Departments

Corrections
Insurance (Bureau of Liquidations)
Mental Health and Developmental Disabilities
Nuclear Safety
Rehabilitative Services
Veterans' Affairs

Commissions

Commissioner of Banks and Trust Companies
Medical Center Commission
Prairie State 2000 Fund

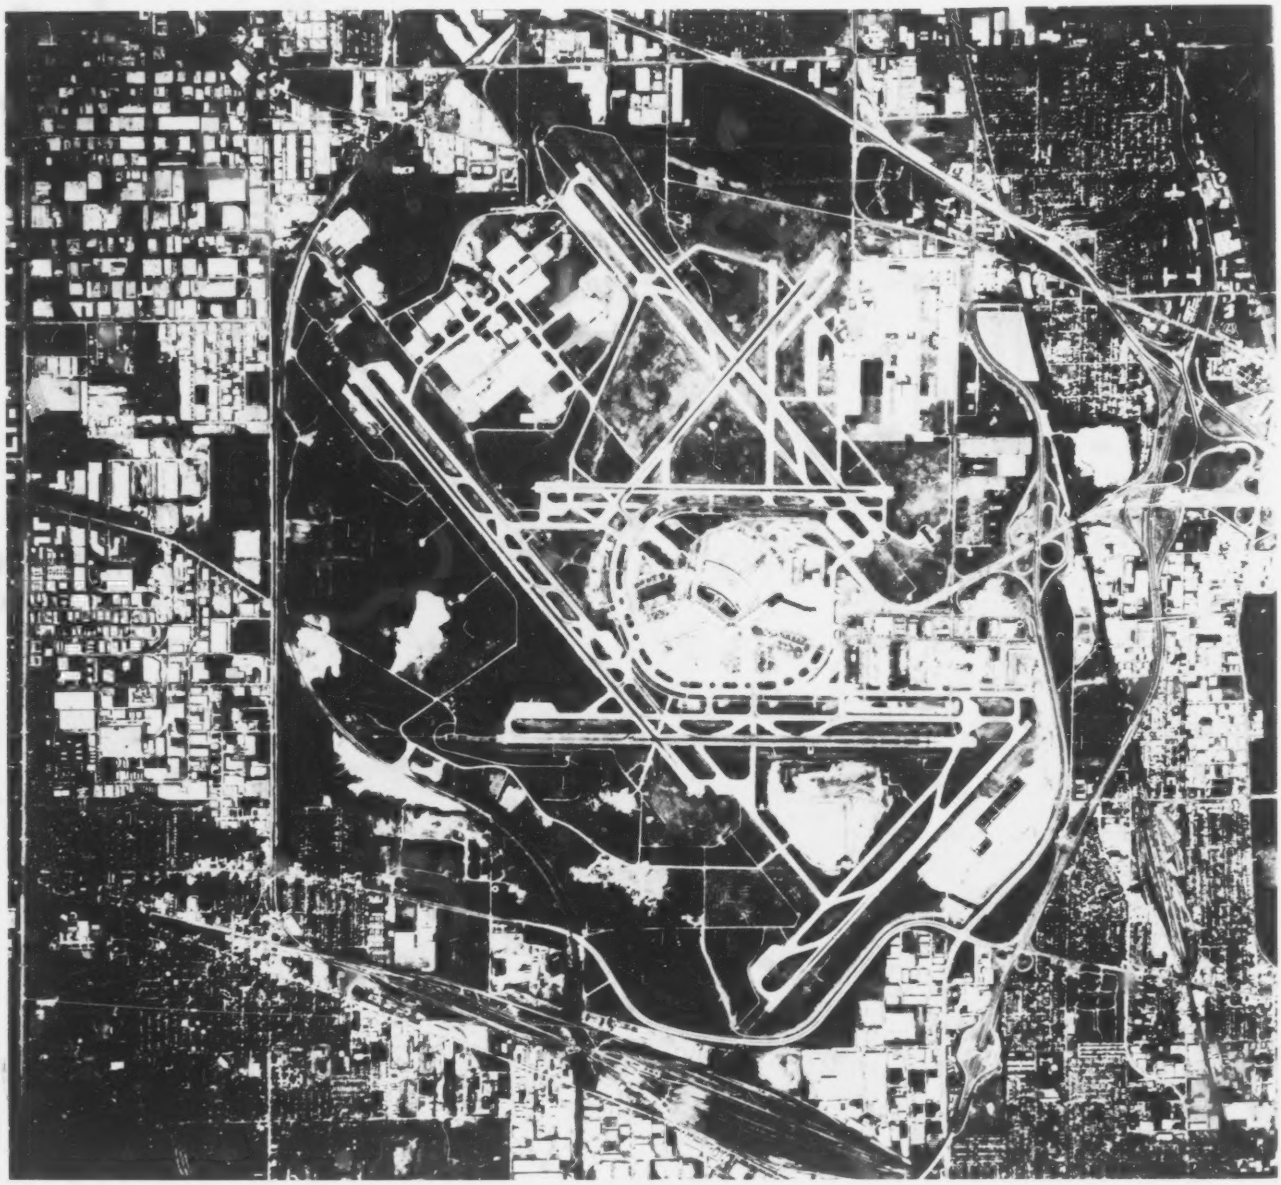
Authorities

Chicago World's Fair—1992 Authority
Illinois Development Finance Authority
Illinois Health Facilities Authority
Illinois Educational Facilities Authority
Illinois Export Development Authority
Illinois Independent Higher Education Loan Authority
Illinois Farm Development Authority

7. Contingencies:

The State, its units and employees are parties to numerous legal proceedings many of which normally recur in governmental operations. All legal proceedings are not, in the opinion of the Attorney General, likely to have a material adverse impact on the State's financial position.

In addition, the State and its units are involved in certain other legal proceedings which, if decided adversely to the State, may require the State to make material future expenditures for expanded services or capital facilities or may impair future revenue sources. It is neither possible to determine the outcome of these proceedings nor to estimate the possible effects adverse decisions may have on the future expenditures or revenue sources of the State.



Eagle's eye-view of O'Hare International Airport

Illinois has kept pace with twentieth century transportation demands and today is a world leader in air transport. The State has approximately 1,100 airports, landing areas and heliports within its borders. Almost every Illinois city having a population of 30,000 or over is served by an airport or commercial airline. Last year over 49 million travelers passed through Chicago's O'Hare International Airport, the world's busiest airport.

As America's transportation center and because of its proximity to major markets, Illinois is vital to air transportation because its location minimizes travel distance. With more than one arrival or departure at O'Hare every sixty seconds (680,000 incoming and outgoing flights last year) businesses and travelers are permitted greater flexibility. Because of its location in the heart of the nation, Illinois provides the lowest overall transportation costs, lowest shipping costs and fewest number of executive flying hours among the nation's ten largest cities.

(bottom) Chicago Municipal Airport, (1935) later named Midway Airport

From very early times, buyers and sellers in most lines of trade have sought some type of protection or insurance against the risks of price fluctuations and an uncertain market. A trader quickly learned that an adverse price change caused by either supply or demand affected his livelihood, and the greater his inventory, the greater the risk involved.

Traders such as potato farmers in Maine and wheat farmers in Nebraska soon found it advantageous to enter into contracts — known as futures contracts — which called for delivery of a commodity at a later date. This allowed traders to lower their inventory risk on their commitments.

Futures trading in the United States developed before the coming of the railroads and found a home in Chicago. Merchants who bought goods were not sure when to expect delivery or even the quantity or quality of their purchase. "To arrive" contracts allowed sellers to get a better price for their goods and prevented buyers from facing adverse price risks.

In 1899, three carloads of eggs were traded in a 45 minute period during opening day trading of the Chicago Butter and Egg Board. Membership cost $100. Today that Board is the Chicago Mercantile Exchange, complete with 26,500 members and 4,000 traders, brokers, clerks, runners and other staff who do business there daily. Membership now costs $287,000.

Options are traded on four types of product groups: livestock, currencies, interest rates and equity products. Coupled with the Chicago Board of Trade, the Mercantile Exchange accounts for 75% of all futures trading in the country.

The MidAmerica Commodity Exchange is the nation's third oldest commodities exchange, established in 1877. Its 1200 members trade soybeans, corn, wheat, cotton, rice, oats, cattle, hogs, wheat and soy options, precious metals, five foreign currencies, and treasury bonds and bills.

The Midwest Stock Exchange, established in 1882, is the second largest securities exchange in the nation in both shares and dollar value, and third in the world. Last year set a record with total trading volume exceeding 2.35 billion shares — a 26.4% increase over 1984, and 238% increase since 1981.

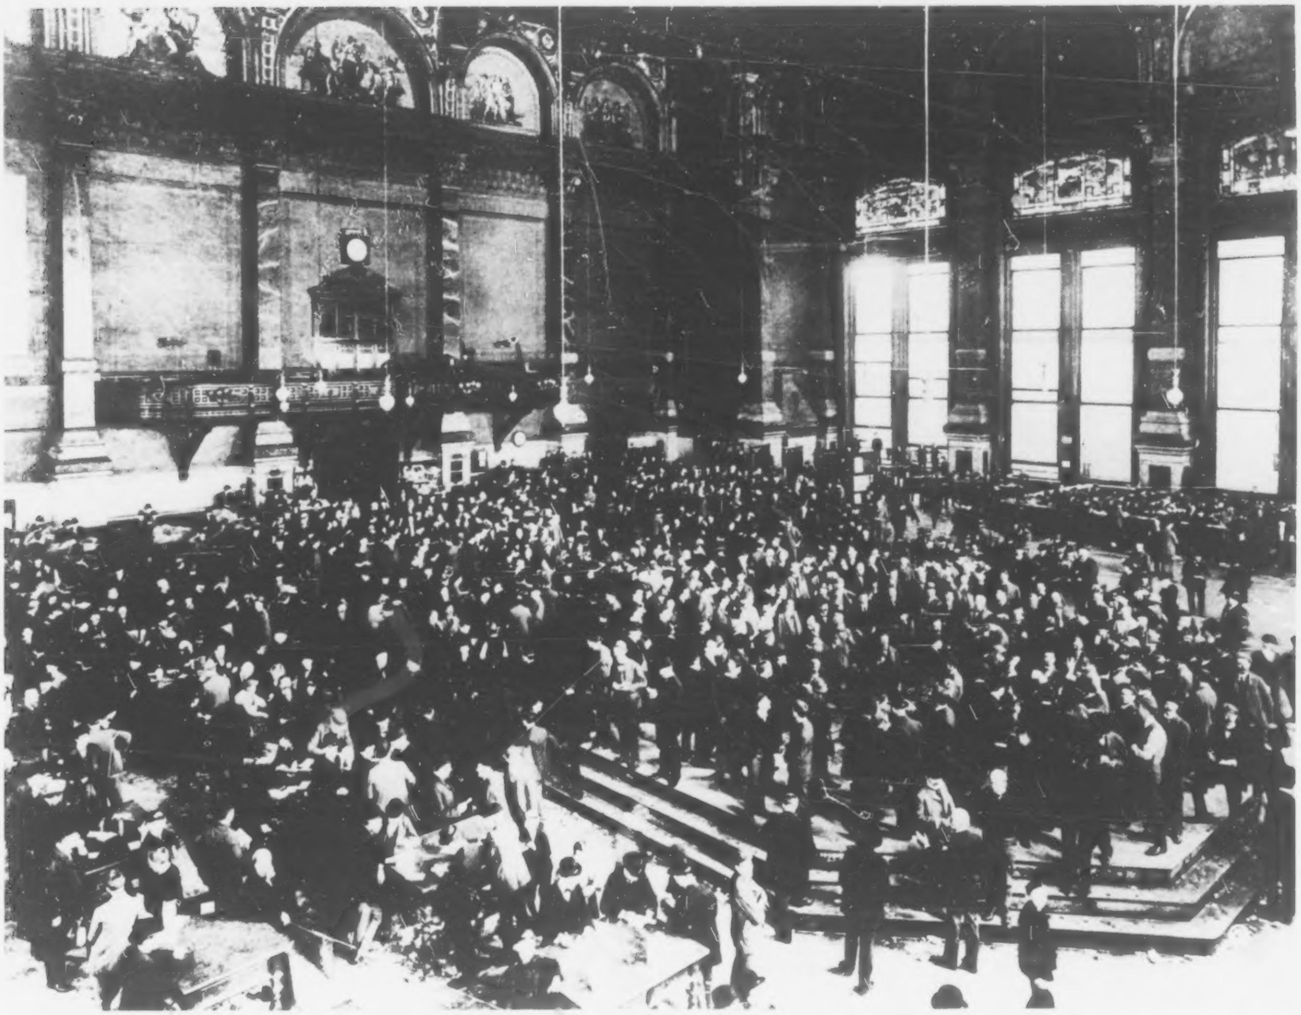
The Chicago Board Options Exchange is the country's oldest and largest options exchange. Established in 1973, it now has 1,300 members and handles the most heavily traded options or futures product — Standard & Poor's 100 Index — and the second largest securities exchange in the nation. Here, stock, index, treasury bond, treasury note and currency options are bought and sold on the world's largest trading floor — 45,000 square feet.

Financial center of Chicago, LaSalle Street

Illinois' status as a financial center continues to grow each year. Illinois has more than 1,200 national and state banks, which control a little over seven percent of the total bank assets in the United States. In addition, the State also has 270 savings and loan institutions, and is the headquarters of 60 large insurance companies. These facilities combined provide the strength and diversity required to generate the billions of dollars in capital needed to finance industrial and commercial development projects. The total assets of these institutions combined is over $95 billion dollars.

Section II

Traditional Budgetary Financial Report



Chicago Board of Trade, the Pit, circa 1900

Courtesy Chicago Historical Society

In 1848, the Chicago Board of Trade was established. Today, the LaSalle Street financial landmark is the world's oldest and largest commodities future exchange. On a typical day, 2,100 full and associate members trade 18 types of commodities such as corn, wheat, soybeans, soybean oil and meal, treasury notes and bonds, silver, gold and other precious metals, and commodities options. Membership currently costs about $225,000. Last year, the Chicago Board of Trade recorded its highest volume of trade ever.

Illinois Funds System

At the end of fiscal year 1985 there were over 300 individual funds in the Illinois accounting system.

The Comptroller segregates these funds into two major categories for reporting purposes — Appropriated Funds and Non-Appropriated Funds.

The Appropriated Funds category is further separated into nine related fund groups — general, highway, university and college income, special state, bond financed, debt service, federal trust, revolving, and state trust funds. Historically, both the general and special state funds groups have included several individual funds which have not had appropriations but were considered to be either supporting appropriated spending from another fund or subject to appropriation. Also, several individual funds in the special state, federal trust, and state trust funds groups reflect spending from both appropriation and no appropriation accounts pursuant to Statute.

The Non-Appropriated Funds category is composed of federal trust funds and state trust funds.

In fiscal year 1985, appropriations totaling $17.878 billion from 218 individual funds were passed by the General Assembly and approved by the Governor. Total warrants issued against these appropriations were $14.939 billion while another $76 million was charged to no appropriation accounts.

As the General Funds group is the State's largest and most important of the fund groups — evidenced by the fact that appropriations from the General Funds in fiscal year 1985 were $9.561 billion or 53.5% of total appropriations from all funds and warrants charged to these General Funds appropriations were $9.327 billion or 62.4% of total warrants issued against all appropriations — this report will look first at transactions in the General Funds, secondly review transactions in Appropriated Funds (including General Funds) as these funds represent the "Illinois State Budget", and lastly summarize transactions in all funds (Appropriated and Non-Appropriated) for informational purposes. This sequence of presentation is reflected in the following pages.

Ten Year History

General Funds Available Balances - End of Month

* Adjusted to exclude Corporate Personal Property Replacement taxes which were passed through the General Funds in FY 1980

General Funds Revenues

Total General Funds Revenues In Fiscal Year 1985 Were $10.317 Billion

63.7% of each General Funds revenue dollar came from the two major taxes levied in Illinois.

33.5% or $3.458 billion came from the state income taxes — individual ($2.863 billion) and corporate ($595 million). Effective at the beginning of fiscal year 1984, the individual tax rate was temporarily raised from 2.5% to 3.0% and the corporate tax rate raised from 4.0% to 4.8% to be applicable to Calendar 1983 and a part of Calendar 1984 tax liabilities. The temporary increases ended on June 30, 1984.

30.2% or $3.120 billion came from the state sales taxes. Effective with January 1984 sales, the sales tax rate was increased from 4.0% to 5.0% while the remaining 2.0% tax on food and drugs was removed.

Of the remaining 36.3% of each General Funds dollar:

15.4% came from federal sources ($1.586 billion) with the major portion (93.7%) representing reimbursements to the Department of Public Aid.

20.9% or $2.153 billion came from other state sources including public utility taxes ($646 million), transfers from the Lottery Fund ($506 million), cigarette taxes ($162 million), investment income ($147 million), insurance tax and fees ($116 million), transfers from the Personal Property Tax Replacement Fund ($99 million), and amnesty taxes ($76 million).

Included in amnesty taxes was $60 million from corporate income taxes, $15 million from sales taxes, and $1 million from all other taxes.

Total General Funds revenues in fiscal year 1985 were $610 million or 6.3% higher than comparable total revenues in fiscal year 1984 — the fifth largest amount of increase in annual revenues in the history of the General Funds (the largest was $1.270 billion in fiscal year 1984) but the fourth smallest percent increase in annual revenues over the past twenty fiscal years. The annual increase in General Funds revenues in fiscal year 1984 was larger than total annual revenues in fiscal year 1966.

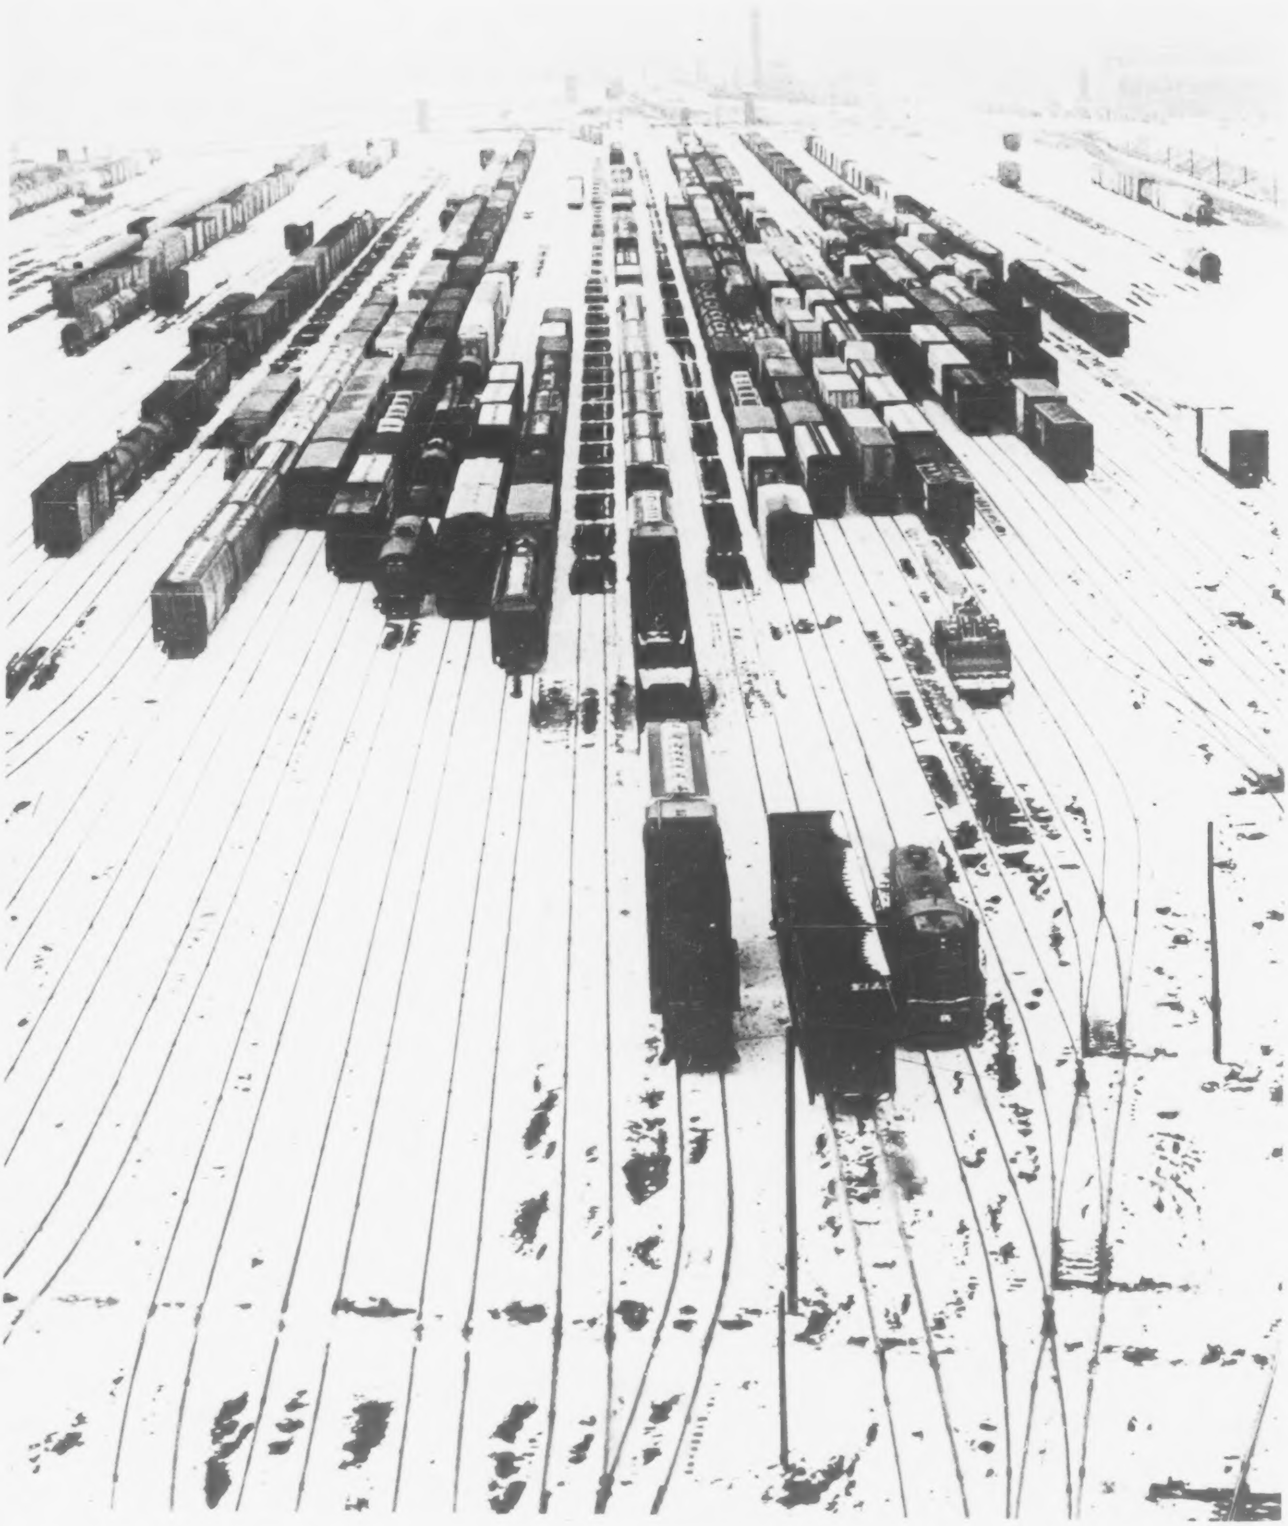
*Gross borrowing from other state funds in first six months of FY 1983



The nation's largest rail gateway is located in Chicago. Another busy rail freight center is located 300 miles southwest, in East St. Louis. Over two dozen railroads crisscross the State and provide service to every corner of America. Overnight shipments can reach markets such as Kansas City and Indianapolis. Fifty-seven percent of Illinois communities have rail service compared with a 35% average nationwide.

General Funds Expenditures

Total General Funds Expenditures were $10.101 Billion in Fiscal Year 1985

The major portion of expenditures for public aid, elementary and secondary education, higher education, and the overall administrative expenses of state government are charged to the General Funds.

The largest spending program from the General Funds in fiscal year 1985 was "Investing in Education" with total spending of $3.441 billion or 34.1% of each General Funds dollar expended. Spending for elementary and secondary education accounted for $2.320 billion or 67.4% of this program with the remaining $1.121 billion being spent for higher education (universities, community colleges, and scholarships).

The second largest spending program was for "Health and Social Services" with expenditures of $2.657 billion or 26.3% of each General Funds dollar spent, followed by related spending of $1.348 billion (13.3% of each dollar) for the "Income Support" program.

Expenditures for other programs of $1.878 billion (18.6% of each dollar spent) included spending for Refunds ($628 million), Public Protection and Justice ($578 million), General Government ($564 million), Natural Resources and Recreation ($82 million), Debt Service ($16 million), and Transportation ($13 million).

"Transfers Out" spending from the General Funds to other state funds was $777 million in fiscal year 1985 or [illegible] of each General Funds dollar expended and primarily represented money distributed to local governmental units or for general obligation bond debt service charges.

Total General Funds spending in fiscal year 1985 was $579 million or 6.1% above comparable expenditures in fiscal year 1984 — Investing in Education up $229 million, Health and Social Services up $219 million, Refunds up $105 million, and Debt Service down $193 million. In comparison, fiscal year 1984 reflected an increase of $1.038 billion or 12.2% more than comparable spending in fiscal year 1983 — the highest annual amount of increase in spending in the history of the General Funds, while fiscal year 1983 reflected a decrease of $10 million or 0.1% less than comparable spending in fiscal year 1982 — the first time in the history of annual budgets that total annual spending declined.

** Includes payback of discretionary transfers (borrowing) to other state funds of $62 million.

Illinois lies at the heart of the nation's Interstate highway system. Three coast-to-coast Interstates (I-80, I-90 and I-70) pass through Illinois. Major east/west and north/south interchanges are located at more than a dozen locations, from the Quad-cities area in northwestern Illinois to Mount Vernon in the southeast. All totaled, 1,700 miles of Interstate (more miles than all but two other states) provide direct highway access to every point in the country. An additional 13,000 miles of highways make these interstate routes accessible from every region of the state.

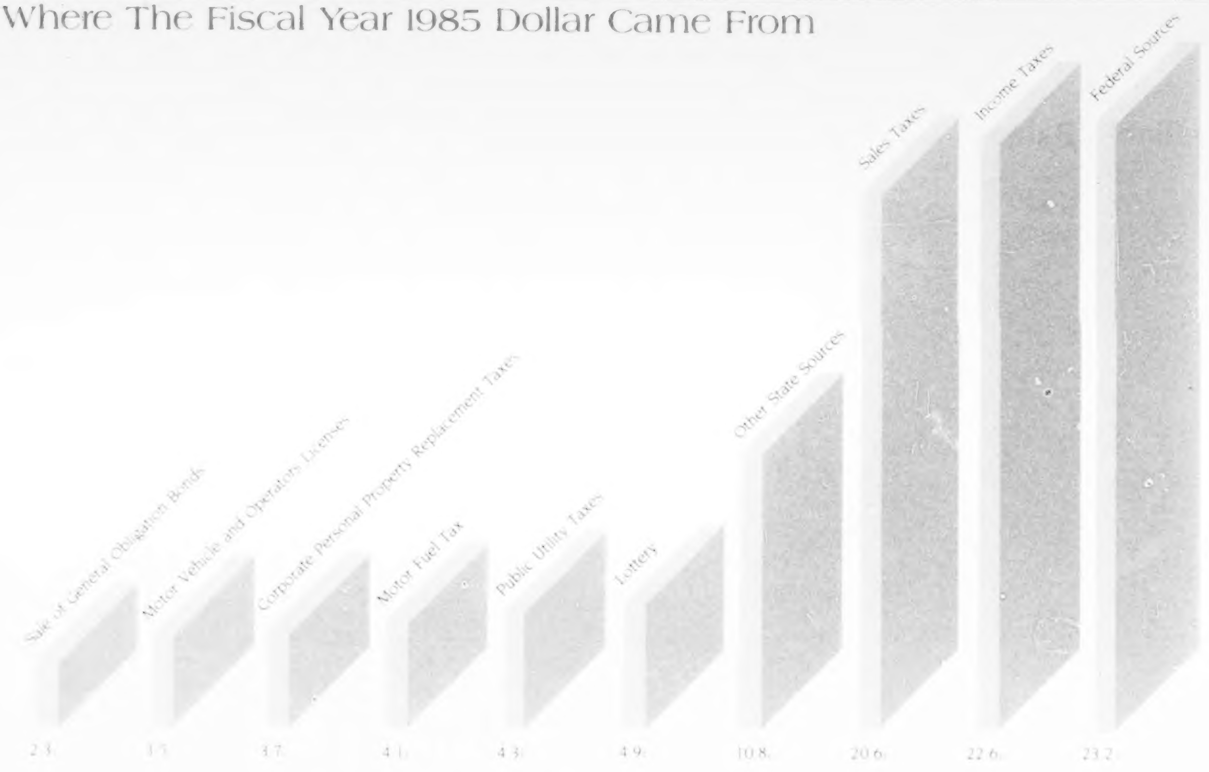
Appropriated Funds

Where The Fiscal Year 1985 Dollar Came From



Total Appropriated Funds Revenues Were $15.316 Billion in Fiscal Year 1985

In all serious discussions of State fiscal affairs, a review of revenues and expenditures from the General Funds must be followed by a look at transactions in the Appropriated Funds group as these funds comprise the "Illinois State Budget".

As General Funds revenues account for the major portion of Total Appropriated Funds revenues, the two key state tax sources of General Funds revenues are also major revenue sources under Appropriated Funds.

In fiscal year 1985, $3.550 billion or [illegible] of each appropriated revenue dollar came from federal sources. $1.587 billion or 44.7% of this total was directed to the General Funds (including reimbursements for public aid and social services expenditures) while $595 million was received for highway purposes. Of the remaining $1.368 billion, $1.259 billion was deposited into the various Federal trust funds in the State Treasury, $90 million directed to State trust funds, $17 million to Special state funds, and $2 million to Debt Service funds.

Another $3.458 billion or [illegible] of each appropriated revenue dollar in fiscal year 1985 came from individual and corporate income taxes. The decline of $315 million in individual income taxes was due primarily to the removal of the temporary tax rate increase which was in effect during fiscal year 1984 (2.5% to 3.0%) while the $46 million increase in corporate income taxes was due in part to processing and what appears to be overpayments by corporations which offset the impact of the temporary tax rate increase (4.0% to 4.8%) in fiscal year 1984.

$3.152 billion or [illegible] of each appropriated revenue dollar came from the sales taxes in fiscal year 1985. The increase of $513 million or 19.4% in this source, over comparable receipts in fiscal year 1984, included the impact of the higher tax rate(4.0% to 5.0%) and the loss from the removal of the remaining 2.0% tax on food and drugs which became effective with January 1984 sales.

Of the remaining $5.156 billion or [illegible] of each appropriated revenue dollar in fiscal year 1985 — $748 million (4.9¢) came from lottery tickets and licenses, $657 million (4.3¢) from public utility taxes, $627 million (4.1¢) from motor fuel tax (the rate increased from 7½¢ in fiscal 1983, to 11¢ per gallon in fiscal 1984, and to 12¢ per gallon in fiscal 1985), $574 million (3.7¢) from corporate personal property replacement taxes, $540 million (3.5¢) from motor vehicle and operators licenses (reflecting increased fees), $348 million (2.3¢) from the sale of general obligation bonds, and $1.662 billion (10.8¢) from all other sources (including $76 million in amnesty taxes).

Total Appropriated Funds revenues in fiscal year 1985 were $1.228 billion or 8.7% higher than comparable revenues in fiscal year 1984 — state sources up $927 million, federal sources up $313 million, and the sale of general obligation bonds down $12 million. The major revenue increases from state sources were $513 million in state sales taxes, $256 million in lottery tickets and licenses, $112 million in motor vehicle and operators licenses, $83 million in motor fuel tax, $76 million from amnesty taxes, and $70 million in corporate personal property replacement taxes. The larger decreases were $315 million in individual income taxes, $50 million in short-term borrowing, and $46 million in inheritance tax.

The average annual increase in Appropriated Funds revenues over the last five fiscal years is $87[illegible] million — FY1981 up $791 million, FY1982 down $273 million, FY1983 up $534 million, FY1984 up $2.083 billion, and FY1985 up $1.228 billion.

Where The Fiscal Year 1985 Dollar Was Spent

Total Appropriated Funds Expenditures Were $15.006 Billion in Fiscal Year 1985

The largest spending agency from Appropriated Funds was the Department of Public Aid with expenditures of $3.218 billion or 21.4¢ of each fiscal year 1985 appropriated dollar. Of this total, $2.916 billion or 90.6% was expended for the various awards and grants programs.

The next largest spending agency was the State Board of Education with spending of $2.726 billion or 18.2¢ of each appropriated dollar expended. $1.476 billion or 54.1% of this total was for general apportionment to the local schools while another $75 million in supplementary payments was provided from the amnesty taxes.

The third largest spending agency was the Department of Transportation with expenditures of $1.870 billion or 12.5¢ of each dollar of total spending from Appropriated Funds. $1.005 billion or 53.7% of this total was for highway/waterway construction.

Spending by the Department of Revenue totaled $1.833 billion or 12.2¢ of each appropriated dollar expended in fiscal year 1985. Included in this total was $643 million for refunds, $506 million in payments to local governments from the Personal Property Tax Replacement Fund, $258 million in grants to local governments from the Local Government Distributive Fund (1/12 of net state income taxes), and $224 million for payment of prizes from the State Lottery Fund.

Expenditures for Higher Education agencies were $1.418 billion or 9.4¢ of each appropriated dollar spent in fiscal year 1985. $498 million or 35.1% of the total was for the University of Illinois.

Only two other agencies had expenditures in excess of $400 million in fiscal year 1985 — the Department of Mental Health and Developmental Disabilities with spending of $579 million or 3.9¢ of each appropriated dollar ($203 million for awards and grants for local care) and the State Treasurer with spending of $438 million (2.9¢ of each appropriated dollar) which included $429 million for debt service on general obligation bonds.

Spending by all other agencies in fiscal year 1985 from Appropriated Funds was $2.934 billion or 19.5¢ of each appropriated dollar spent. Three agencies had spending in excess of $300 million — Central Management Services $360 million, Commerce and Community Affairs $359 million, and Corrections $347 million.

Total expenditures from Appropriated Funds in fiscal year 1985 were $1.301 billion or 9.5% above comparable spending in fiscal year 1984 — the increase in fiscal year 1984 was $1.680 billion or 14.0%. Such increases over the last two fiscal years are unprecedented.

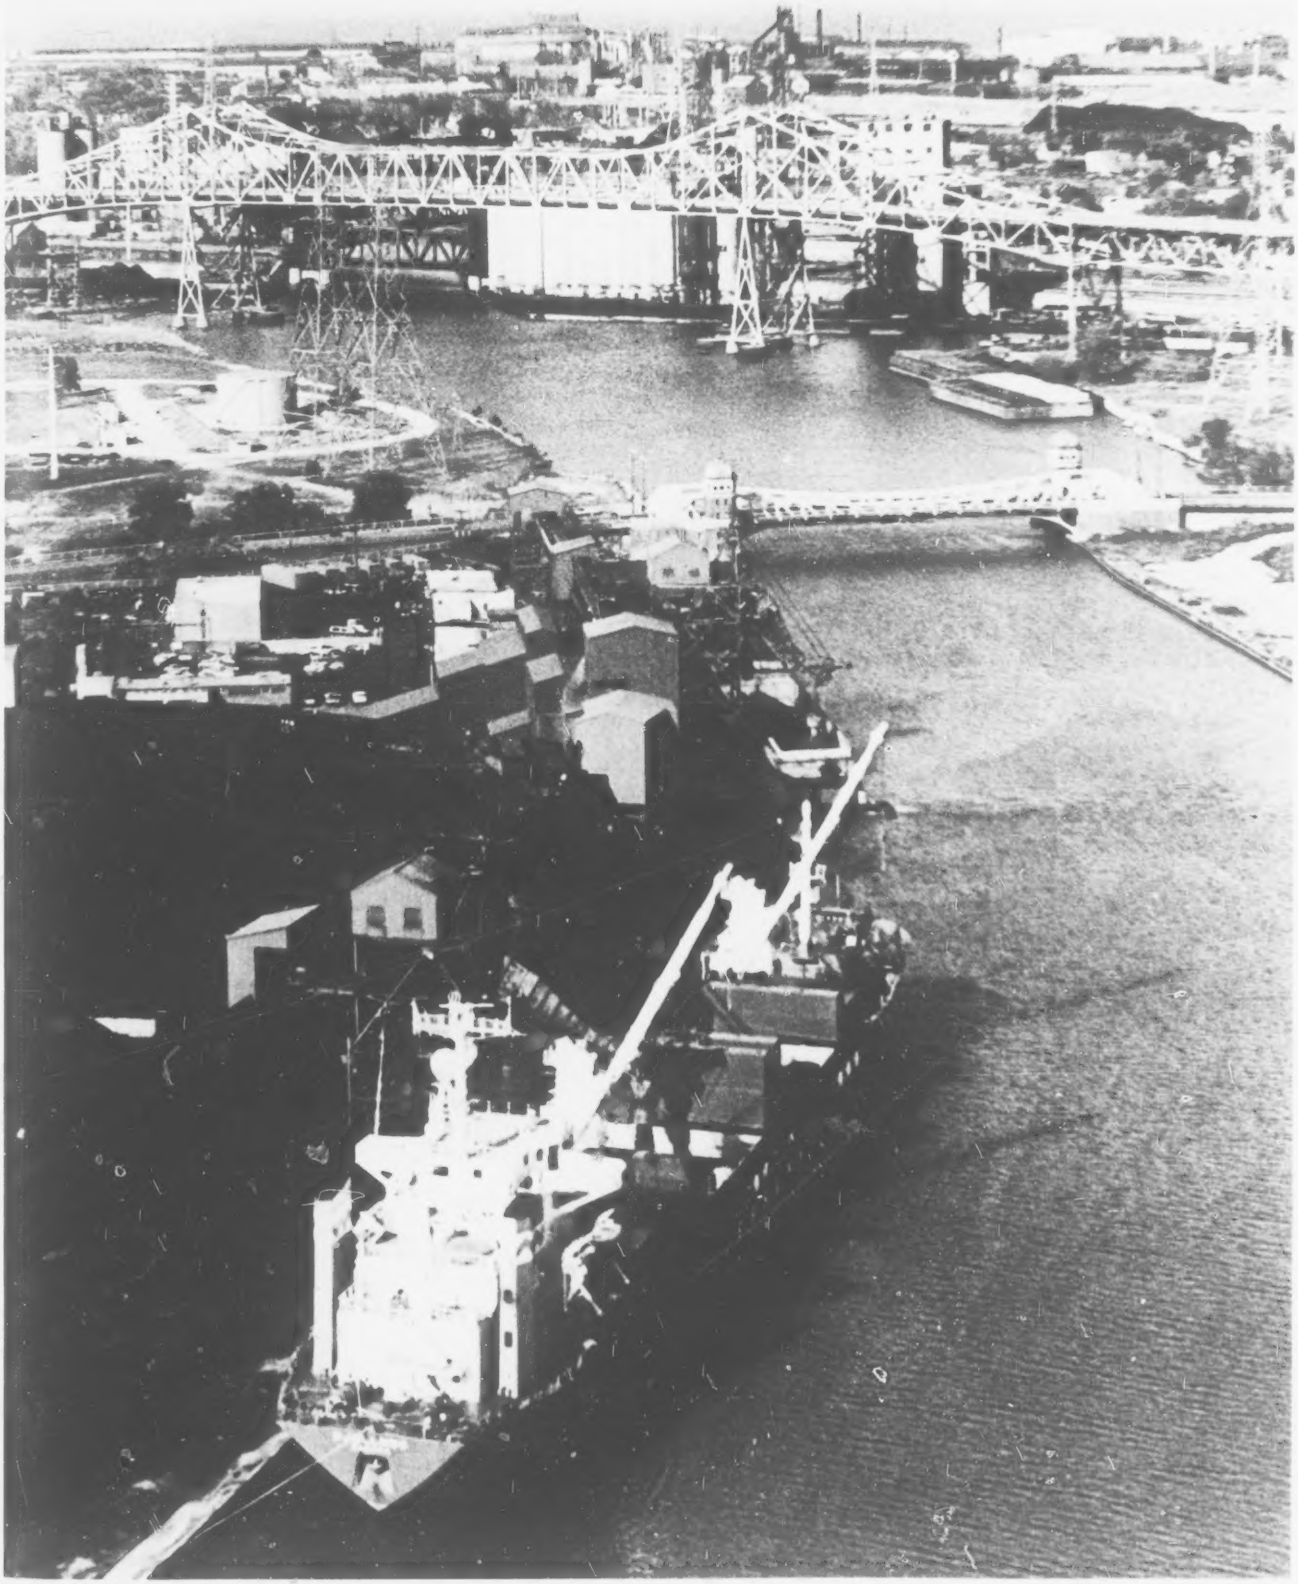
Chicago River at the Link Bridge, 1928

Courtesy Chicago Historical Society

Illinois' history as a center for industry and trade was due in large part to the 1,110 miles of navigable waterways which border or pass through the State. Providing Illinois with a direct link to the Atlantic Ocean (via the Great Lakes and St. Lawrence Seaway) and the Gulf of Mexico, these waterways and port facilities are taking on renewed emphasis as part of Illinois' transportation system.

The Port of Chicago, with major docks on the Lake Michigan shoreline extending six miles inland along the Calumet River, offers shippers unloading and loading facilities at 75 terminals. The Iroquois Landing Lakefront Terminus, with 225,000 square feet of storage space and 90 acres of paved land, is the newest containerized shipping facility on the Great Lakes.

Operated by the Illinois International Port District, the Lake Michigan port is served by four railroads and has direct access to Interstates 90 and 94.



Illinois-Michigan Canal

Report of Independent Accountants

The Honorable Robert G. Cronson
Auditor General
State of Illinois

We have examined, as Special Assistant Auditors for the Auditor General State of Illinois, the statement of budgetary fund balances relating to the fiscal control officer responsibilities of the Office of the Comptroller — State of Illinois (Comptroller) as of June 30, 1985 and the statement of budgetary receipts and expenditures, schedules of changes in appropriated and non-appropriated budgetary fund balances and schedules of appropriations, budgetary expenditures, and lapsed budgetary balances for the year then ended. Our examination was made in accordance with generally accepted auditing standards and the standards for financial audits contained in the U.S. General Accounting Office's Standards for Audit of Governmental Organizations, Programs, Activities, and Functions and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The accompanying budgetary statements and schedules present the balances and transactions relating to the fiscal control officer responsibilities of the Comptroller on the basis described in Note 1. As explained therein, this basis of presentation differs from generally accepted accounting principles. Accordingly, the accompanying budgetary statements and schedules do not purport to present the financial position or results of operations of the State of Illinois in conformity with generally accepted accounting principles.

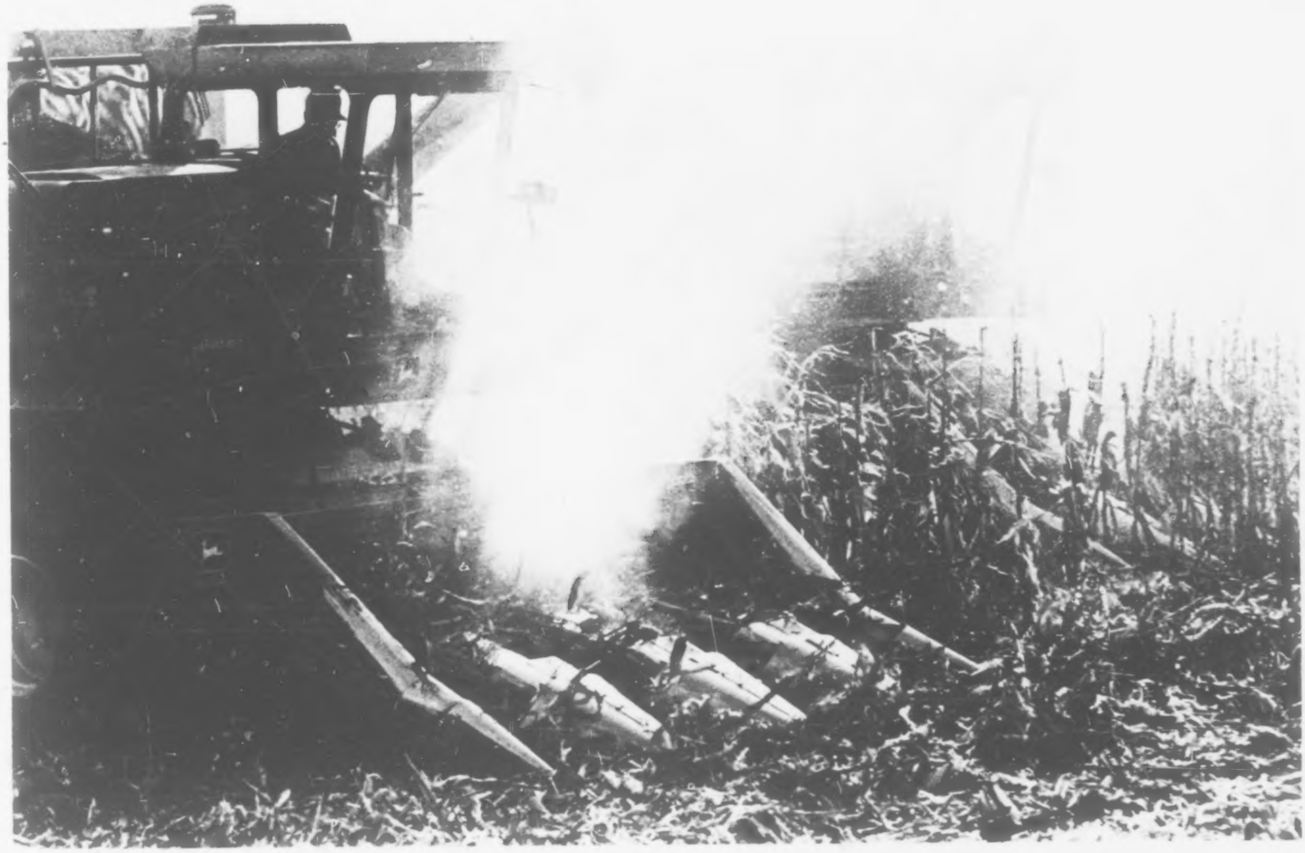
In our opinion, the accompanying budgetary statements present fairly the budgetary fund balances at June 30, 1985 and the changes in budgetary fund balances and budgetary receipts and expenditures for the year then ended relating to the fiscal control officer responsibilities of the Office of the Comptroller — State of Illinois on the basis of accounting described in Note 1, applied on a basis consistent with that of the preceding year.

The general purpose financial statements and supplementary schedules of the State of Illinois for the year ended June 30, 1985, prepared in conformity with generally accepted accounting principles, included on pages 6 through 47, were examined by the Auditor General of the State of Illinois.

We have also performed a compliance audit of the fiscal control officer responsibilities of the Office of the Comptroller — State of Illinois for the twelve months ended March 31, 1985, and have issued our report thereon, dated July 17, 1985.

Chicago, Illinois
December 20, 1985

Touche Ross & Co.



Agriculture is the largest industry in Illinois. Approximately 90,000 farms cover about 28 million acres, or nearly 81 percent of the land. One of every five Illinois jobs has its roots on the farm.

Illinois leads the nation in the export of agricultural products. So, be it in the obvious production agriculture, or in the behind the scenes transportation, processing and food industry jobs, Illinois citizens are hard at work making the agricultural industry as a whole prosper. The fertile prairie soil, the favorable climate, and the availability of excellent transportation and grain handling systems have proven valuable assets to export success. The river system, highlighted by the Mississippi on the west, the Ohio on the east, and the Illinois through the middle of the state, make transportation to the Gulf of Mexico ports easy and affordable. Illinois also has access to the St. Lawrence Seaway through the Port of Chicago on Lake Michigan. In addition, Illinois is served by one of the country's most sophisticated railway networks. Illinois farmers are able to take advantage of these assets when getting their grain from the fields to markets.

* Non-appropriated fund in fiscal year 1984.

** Fund name and classification changed in fiscal year 1985.

(a) Expenditures from appropriated funds include expenditures against fiscal year 1985 appropriations as reflected in the Schedule of Appropriations, Budgetary Expenditures and Lapsed Budgetary Balances, plus expenditures totaling $68,544 against no appropriation accounts, less warrants totaling $9,810 issued in prior fiscal years which were returned (refunds) or voided during the current fiscal year.

(b) Lapse period expenditures from appropriated funds include expenditures against fiscal year 1985 appropriations as reflected in the Schedule of Appropriations, Budgetary Expenditures and Lapsed Budgetary Balances, plus expenditures totaling $7,801 against no appropriation accounts.

See Accompanying Note to Financial Statements and Schedules

Note To Budgetary Financial Statements & Schedules

Note 1 — Basis of Budgetary Financial Statements and Schedules

Description of Fiscal Control Officer Responsibilities

The Comptroller is the chief fiscal officer of the State of Illinois and is responsible for maintaining the State's central fiscal accounting records. The Comptroller provides (1) an accounting control over monies in the State Treasury and (2) a control over the issuance of warrants for payment of agencies' expenditures including ascertaining that sufficient appropriation and fund balances exist before payments are made.

The Treasurer is custodian of the State's cash and investments and is accountable for the balances in many separate funds which are considered to be either in the State Treasury or outside the State Treasury.

The Comptroller's Office control over funds in the State Treasury is maintained through the following procedures: (1) receipts can be ordered into the State Treasury only by the Comptroller; (2) expenditures can be made from the State Treasury only by warrants issued by the Comptroller; and (3) transfers between funds in the State Treasury must be approved by the Comptroller.

Accounting control for funds outside the State Treasury, composed primarily of the Treasurer's clearing accounts, is the responsibility of other state agencies. Further, the Comptroller is not responsible for determining that all cash received by state agencies is deposited into the State Treasury or for determining that all state agencies' internal accounting controls and procedures are such that expenditures represent payments for goods and services received by agencies.

Policies Followed For Preparation of Budgetary Financial Statements and Schedules

The budgetary financial statements and schedules included on pages 74 through 92 present the balances and transactions relating to the fiscal year ended June 30, 1985.

Receipts consist of all cash ordered into the State Treasury by the Comptroller during the fiscal year.

Expenditures consist of warrants issued by the Comptroller (1) during the fiscal year and (2) during the subsequent July 1 through September 30 (the lapse period) for payment of obligations incurred on or before June 30 (lapse period expenditures) except for the prior year's lapse period expenditures and warrants for accounts which were reappropriated for 1986 and for certain non-appropriated accounts.

The negative budgetary balances of several funds represent a deficit to the extent that expenditures during the lapse period were in excess of the June 30 available balance.

Funds which have both appropriated and non-appropriated accounts are included in appropriated funds.

The budgetary financial statements and schedules for the State of Illinois, presented on pages 74 through 92, do not present the financial position of the State of Illinois nor the changes in its fund balances in conformity with generally accepted accounting principles because, among other things, (1) they do not include a balance sheet setting forth balances for the State's cash, investments, fixed assets, bonded indebtedness, certain other liabilities, such as those related to pensions, the unemployment trust fund, and locally-held funds, and (2) they do not recognize all revenues receivable as of fiscal year-end. Also, no consideration is given to the existence or disclosure, if appropriate, of commitments or contingent liabilities. In addition, budgetary receipts and expenditures include not only transactions with parties outside the state government but also (1) non-statutory transfers which are made by the issue of warrants and (2) purchases and sales of security investments for retirement systems and certain other agencies.

Political parties as we know them today did not exist in Illinois when New Salem was founded in 1829. It was an era of "no-party politics" in which elections were contested by rival factions and local personalities.

The first American party system (Federalists vs. Republicans) lasted from the 1790's until about 1816. The second American party system (Democrats vs. Whigs) emerged in the 1830's and disintegrated amidst the slavery controversy of the 1850's. The third party system (Democrats vs. Republicans) arose in the 1850's and is still with us today. New Salem was thus founded in an interval between the first and second American party systems, a period when national politics was largely organized around individuals and personal factions.

Political leadership was exercised by individuals, often combined in shifting alliances, without reference to parties and without formal organization. Candidates were self-nominated or nominated by powerful but loosely organized cliques led by influential individuals. Candidates for local offices might announce at a logrolling, muster, or to a number of voters who might be standing around the county town on court day. Or a candidate's "friends" might call a "mass meeting" — sometimes a dozen or fewer attended — to launch the candidacy of their man.

Campaign styles were folksy, personal, and self-consciously democratic. Every politician represented himself as a "common man" and, if possible, his opponent as an aristocrat. One report of Lincoln's first race for political office in 1832 reveals the folksy campaign style employed by the era's politicians. A.Y. Ellis, who kept store at New Salem, recalled Lincoln's "maiden effort on the stump" at a village west of Springfield. When a fight broke out in the crowd, Lincoln descended from the platform, seized a "bully" by the neck and seat of the trousers, and threw him "twelve feet away." He then returned to the platform.

Elections at New Salem, Illinois were governed by the state constitution adopted in 1818 when Illinois became a state and by an election law approved in 1829. On November 5, 1832, Samuel Hill's home (pictured left) served as a polling place in the presidential election. All white male inhabitants above the age of 21 who had lived in Illinois at least six months were eligible to vote. Voting was oral or "viva voce". A voter simply entered the polling place and approached what the law described as a "bar" (probably a table or counter where the election judges and two clerks were sitting). He then addressed the election judges, announcing in "an audible voice" names of the persons for whom he was voting. Than the clerks entered his name and votes on two poll books. The law also provided for an alternative method whereby a voter handed "an open ticket" (an unfolded list of offices and candidates for whom he wished to vote) to the election judge, who read the list aloud.

Although scholarship has moved on since those times and the Frontier experience has greatly diminished in importance, it was the frontier that was the cutting edge of the experience that made America.

Excerpts from the "Hill Residence: Politics in New Salem" Richard Taylor

---

Local governments were first developed during the Colonial era and are considered to be the backbone of our nation and democratic system of representation. It was our founding fathers who called for a weak central government, and a strong local government.

Since the Colonial era, local governments have flourished and developed rapidly. They range in type from counties and municipalities to school districts and special districts. In Illinois there are 17 different types of local governments, with subclassifications among the different units.

Illinois' reliance on local governments far exceeds that of other states. A 1982 federal survey ranks Illinois first among the fifty states with 6,467 local government units. Pennsylvania is a distant second with 5,317 units.

According to the latest official count, Illinois has 102 counties: 1,280 municipalities, cities, villages and incorporated towns: 1,434 townships: 1,010 school districts; and 2,602 single-function special districts ranging from Chicago's Metropolitan Sanitary district to the Caseyville Township Street Lighting District in St. Clair County. Most of these governments have some form of property taxing authority.

On the average, local governments in the United States collect 39.8 percent of the total state and local taxes. In contrast, local governments in Illinois account for 48.5 percent of state and local taxes, about 25 percent more than the national average. New York is the only other state to have a higher tax component, where 51.5 percent of the taxes collected are from local governments.

In terms of employment at the local level, Illinois ranks fourth among the fifty states employing 37[illegible],797 local elected officials and staff members. But in terms of citizen's representation, the state is clearly the nation's leader.

Illinois' Stars...

Jamie Lee Curtis "Grandview U.S.A."

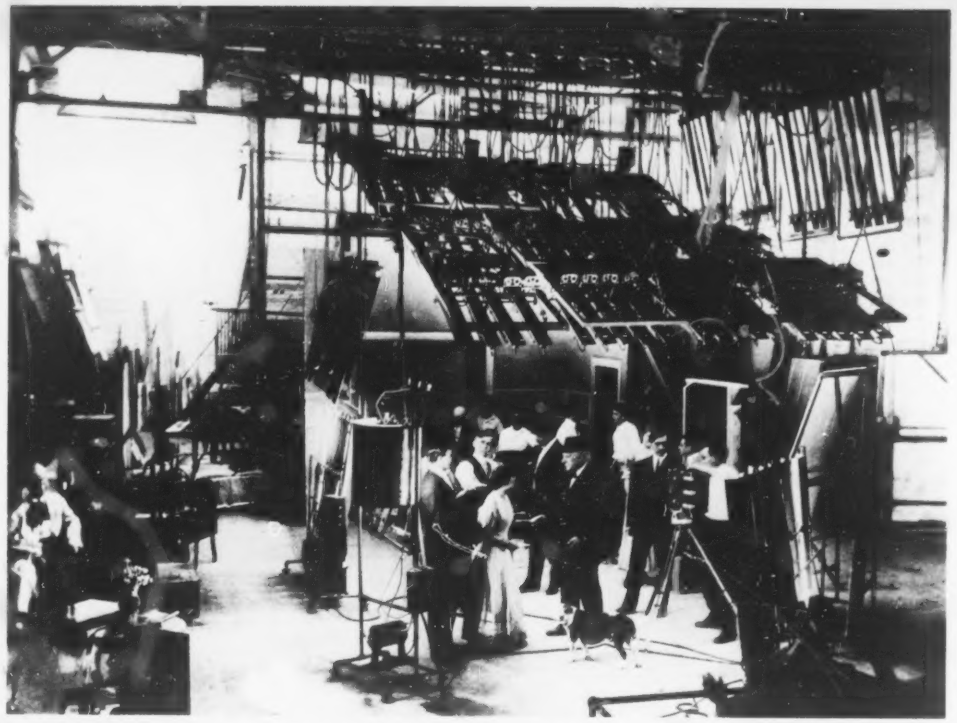
Breakfast Club



Essanay Studios, Chicago early 1900's. Francis X. Bushman at left of camera
Courtesy Chicago Historical Society

The road to Hollywood began almost 1,800 miles east of the California border, in Chicago to be exact. After Thomas Edison created the world of motion pictures, businesses began to explore the possibilities of this new medium. When the development of mercury vapor lights for artificial lighting in 1906 made indoor studios possible, several businessmen established motion picture studios in Chicago.

In the early heyday of film, Chicago's one-reelers, which were usually shot in a day, produced some of the best comedies of Charlie Chaplin and film's first cowboy hero, "Bronco Billy" who invented the double or stuntman.

Illinois has developed into the fourth largest film and production center in the country. During the past decade, Illinois has been the setting for 160 feature films and television productions that generated $140 million, created 80,000 temporary jobs and spent nearly $500 million in economic activity. For every dollar spent by the State to promote filming, $75 has been returned through wages, purchases from suppliers and other production costs.

Location filming for television series "Lady Blue"

- 1907: George Spoor and G.M. Anderson open Essanay Studios in Chicago. George Klein produced the first "Ben Hur"
- 1911: Essanay Studios produce first acted film to be used for industrial advertising.
- 1925: First 3-D film
- 1930: First wide screen 70mm film projected on 70 x 34 foot screen

TABLE I

FUND TRANSACTIONS - FISCAL YEAR 1985

All Treasury funds are listed in this comprehensive table.

The budgetary balance on June 30, 1984 plus total revenues constitute the total available for expenditure in fiscal year 1985 including the "lapse period", July 1 through September 30, 1985. The total available as reduced by total expenditures in the twelve months of fiscal year 1985 and the warrants issued in the lapse period to pay fiscal year 1985 obligations equal the budgetary balance to begin the next fiscal year. The budgetary balance in several funds may be negative to the extent that warrants issued in the lapse period exceed the available balance on June 30, 1985. The deficiencies in these budgetary balances are compensated by transfers or cash receipts during the lapse period.

Transfers between funds are listed in Table I-A.

"Prior Years Adjustments" to warrants issued are set out in a separate column and considered in arriving at the net warrants issued and total expenditures for the fiscal year.

"Appropriated Funds" are those funds which either had an appropriation in fiscal year 1985, was used to support (through the transfer process) spending from a fund with appropriations, or was considered to be a fund subject to appropriations.

TABLE I

FUND TRANSACTIONS - Fiscal Year 1985

Fund Group and Fund	Fund Code	Available Balance June 30, 1984	Less Warrants Issued Fiscal 1984 Lapse Period	Budgetary Balance to Begin Fiscal 1985	Revenues		Total Revenues

TABLE II (Continued)

ANALYSIS OF CASH RECEIPTS

Footnotes:

* Change in fund classification.

** Change in fund name.

1. Individual income tax rate temporarily increased from 2.5% to 3.0% effective from July 1, 1983 through June 30, 1984.

2. Corporate income tax rate temporarily increased from 4.0% to 4.8% effective from July 1, 1983 through June 30, 1984.

3. Refunds in 12 months period ending June 30 consistent with cash receipts are as follows:

	FY 1984	FY 1985
Income Taxes:		
General Revenue Fund....................	$432,727,154.59	$479,939,952.01
Personal Property Tax Replacement Fund..	82,101,447.09	99,465,560.75
Inheritance Tax...........................	4,021,783.74	2,012,427.90
Motor Fuel Tax............................	9,934,025.23	17,831,720.22

4. Sales tax rate increased from 4% to 5% effective with January 1984 sales (25% of sales tax and motor vehicle use tax deposited into the General Revenue - Common School Special Account Fund) while remaining 2% tax on food and drugs was removed.

5. Effective in September 1984, sales tax reinstated on soft drinks and distribution altered. Effective in November 1984, 1.55% of sales taxes deposited in the new Tourism Fund with the remainder distributed 75% to the General Revenue Fund and 25% to the General Revenue - Common School Special Account Fund.

6. $10,933,819.23 protested in fiscal 1985.

7. State inheritance tax eliminated effective December 31, 1982. Due to nine-month filing period and normal processing delays, substantial receipts were still received during the first half of fiscal 1984. A portion of the Federal estate tax is still "picked up" by the State.

8. Payment of tax accelerated pursuant to legislation which changed the due date from "during the month of July" to "with the annual report" - applicable to taxable years beginning on and after January 1, 1983.

9. Borrowed from private sector in August 1983 pursuant to the Casual Deficits Act.

10. Refer to detail following summary of appropriated funds.

11. The Illinois Tax Delinquency Amnesty Act allowed taxpayers from October 1, 1984 to November 30, 1984 to pay all taxes due prior to July 1, 1983 plus 50% of the interest that would have been owed and amnesty from prosecution and other interest or penalty charges. All money collected under this Act will be deposited into the Common School Fund.

12. In fiscal 1985, the Public Aid Trust Fund was abolished and all reimbursements deposited directly into the General Revenue Fund, except for social service reimbursements which are transferred from the new Social Services Block Grant Fund. The federal share of the Public Assistance Recoveries Fund, which was transferred by warrant to the Public Aid Trust Fund. is now deposited directly into the General Revenue Fund. Also, child support monies from the Public Aid Trust Fund and Public Assistance Recoveries Fund are deposited directly into the new Child Enforcement Trust Fund.

13. In fiscal 1984, pursuant to legislation, there was a phased-in increase for licenses and fees with the increase directed to the State Construction Account Fund. A portion of the increase was misdirected to the Road Fund in fiscal 1984 but was rectified in fiscal 1985.

14. Effective August 1, 1983, the motor fuel tax was increased from 7.5¢ to 11¢ per gallon with an additional 2.5¢ per gallon surcharge on diesel fuel. Effective July 1, 1984, the motor fuel tax was increased from 11¢ to 12¢ per gallon.

15. Effective in September 1984, 1/12 of $1,665,662 each month diverted from the Fair and Exposition Fund to the new Tourism Fund.

16. Tourism Fund receives 40% of the 5% tax on 94% of gross rental receipts, with the remaining 60% directed to the General Revenue Fund. Receipts from an additional tax of 1% of 94% on gross rental receipts directed to the Tourism Fund.

17. The General Obligation Bond Act consolidated the issue and the retirement of anti-pollution, capital development, coal development, transportation, and school construction general obligation bonds.

TABLE III

SUMMARY OF EXPENDITURES BY FUND GROUP AND FUND

APPROPRIATED FUNDS AND NON-APPROPRIATED FUNDS

for

FISCAL YEAR 1985

A comprehensive statement of appropriations, expenditures (including lapse period), amounts lapsed, and lapse period expenditures for each fund and fund group for fiscal year 1985.

Expenditures (including lapse period) comprise warrants issued from July 1, 1984 through September 30, 1985.

TABLE III

SUMMARY OF EXPENDITURES BY FUND GROUP AND FUND

APPROPRIATED FUNDS
